In my Forty-fourth Successful Numismatic Year!

FOREWORD

Mr. Belden E. Roach, whose fine Numismatic Collection it is my privilege to offer here, was a comparatively young collector. But as he was a gentleman of large means, he accumulated, in a comparatively short period, a most outstanding collection of numismatic material, particularly that of the United States, as is evidenced by the splendid material here offered.

It was my privilege and pleasure to know Mr. Roach personally and intimately. In my frequent visits to New York we spent considerable time together. Mr. Roach's ambition was to form a complete collection of United States coins. His untimely passing prevented this accomplishment, but from the wonderful array of the material here offered it will be noted that he was successful in accomplishing a goodly portion of his plans.

Especial attention is here directed to the manner in which this great collection is cataloged. I have departed from the stereotyped arrangements, which I am sure will prove more interesting to you.

The illustrations are actual reproductions made directly from the actual coins. Following my usual custom, I did not have the illustrations in "plates," but each illustration is placed with the description of the coin so that you may "see" the coin while you read its description. Also, I have endeavored to be liberal in catalog space, cataloging practically all coins separately so that it would not be necessary for you to bid on a lot of duplicates in order to obtain a single specimen you desire.

The condition of the collection, as a whole, is really superb. In bidding, please bear in mind the high quality of the material here offered. And may I suggest again that you read the Terms of Sale before bidding.

I respectfully invite your bids for any items in which you are interested. This invitation is made with my personal assurance that my most earnest efforts to please you and serve you to your entire satisfaction will be my main endeavor.

Thanking you,

THE TERMS OF THIS IMPORTANT SALE ARE AS FOLLOWS:

PLEASE NOTE: I respectfully solicit your bids for this outstanding Sale. I am sure that you will want at least some items from this great Sale. I assure you that your bids will be executed by me as fairly as if you had been present at the Sale.

BUT,—**before bidding, please read the following terms**, as they are the ONLY terms upon which your bids will be accepted. And no exception can or will be made for anyone. I mention this because at every Sale someone ignores the Terms as here published, and misunderstandings occur. I am endeavoring to avoid this. So please take a few moments time to read the Terms of Sale.

All bids are entered as received and the lots allotted to the highest bidder. Where two or more highest bids for the same amount are received for the same lot (and this happens very frequently) the first bid received gets the lot. Where two or more unlimited bids are received for a certain lot, the lot is purchased for the first received. Unlimited bids are executed at an advance of five per cent (5%) over the next highest bid.

When I receive your bids, I consider myself as your agent and execute your bids at as much under your bids as the next highest bid will permit. In other words, your bids are executed for you by me just as faithfully as if you had yourself been present at the Sale.

No commission charge will be made on purchases made for you at this Sale.

All lots are sold just as cataloged. No lot is broken under any circumstances. Please be sure and bid by the number of the lot and at SO MUCH PER PIECE. As an example, if there are ten pieces in the lot and you want to make your bid \$1.00 for the lot, make your bid 10c, and not \$1.00.

I guarantee all coins and notes to be genuine unless otherwise described or stated in the Catalog. **But all claims of any nature or for any reason must be made within thirty days from date of Sale.** My guarantee means something to you. Please remember that there are more than forty years of proven successful numismatic experience and ample financial responsibility back of my guarantee.

NOTICE TO NEW BIDDERS: Buying coins at auction is not the same as receiving coins on approval. The coins are bought for you on your order and you are, of course, expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid on the correct lot you desire and at SO MUCH PER PIECE.

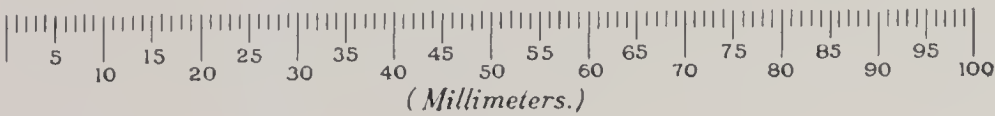

PLEASE NOTE: Parties unknown to me and who have not had any previous credit established, or do not have a financial rating in Dun & Bradstreet, must send a deposit of at least 25% of the amount of their bids, **otherwise they cannot and will not be accepted.**

The Price List of this great Sale will be printed on the same quality paper as the body of the catalog, and of the same page size. The Price List will show the amount each and every coin sold for. Price for this list now is only \$1. But this price holds good only until date of Sale, after which the price will be \$2.

PLEASE NOTE: This Sale is so huge, it may take longer to dispatch the lots to the successful bidders. The Price Lists may be a little late in being distributed, so please be patient. The Price Lists will be dispatched as promptly as is humanly possible.

Of course, all bids must be in my office on or before the date of sale. In this instance, I will appreciate more than ever before if you will kindly send your bids in early. By so doing you will earn my gratitude and you may obtain a lot which you may miss by sending your bids late.

The Size of Coins and Medals in this Catalog is given by Millimeters.

EARLY COINS of the AMERICAN COLONIES SILVER COINS of MASSACHUSETTS

Lot No. 1

The Extremely Rare New England Shillings. First Coins Struck in North America.

Lot No.

- 1 (1652) New England Shilling. Large circular silver planchet, without collar, slightly irregular, with large N E (for New England), struck in relief in depressed punchmark on upper obverse: Reverse, the value, XII, for 12 pence or shilling, stamped in relief in square punchmark. Very fine. Extremely rare and of highest historical interest. The first coin issued in America. One of the finest specimens I have ever seen, on the largest planchet. Variety with die break at right of N. E. Classed by Mr. Wurtzbach, the recognized authority on these coins, as Rarity 6, the highest rarity rating. And this variety listed as unique. The first that I have had pass through my hands in more than twelve years. (Valued by former owner at \$250.00.) See reproduction above.
- 2 (1652) New England Shilling. Same type as last; planchet irregular. Die break to left of N and also on reverse at II of XII. Very fine. Of extreme rarity and just as valuable as last. I believe this is the first time in my experience of more than forty years in the numismatic profession that I have had two of these extremely rare and historical coins to offer at one time. It is seldom that even one specimen is available.

OAK TREE SHILLINGS

Lot No.

- 3 1652 Oak Tree Shilling. Tree with thin irregular branches; legend, IN MASATHVSETS. Reverse, large date, 1652 and XII in center within beaded circle. Legend, NEW ENGLAND. AN DOM. Perfect planchet, almost perfectly round. Crosby 2-D. Variety with heavy die break on upper edge of obverse and near right edge of reverse. Strictly very fine, and for this coin can be classed as extremely fine. Classed as Rarity 4. Very rare in this remarkable condition. (Cost \$60.00.)
- 4 1652 Oak Tree Shilling. Heavier branches. Obverse struck slightly off center; reverse, well centered. Crosby 4-C. Rarity 3. Fine, strictly so for this coin. Extremely rare variety.
- 5 1652 Oak Tree Shilling. Unusually large planchet, circular. Heavy branches. Crosby 7-B. Perfectly centered with nearly full outer border of dots showing. Strictly fine. Very rare.
- 6 1652 Oak Tree Shilling. Large tree. Slightly oblong planchet. Slightly imperfect at left edge. Uncirculated, superbly struck. Undoubtedly one of the finest, if not the finest known. (Cost \$60.00.)
- 7 1652 Oak Tree Shilling. Large tree with heavy branches. Crosby 9-H. Of later die. Not boldly struck on right edge of obverse and corresponding side of reverse, otherwise fine to very fine; slight die breaks on reverse. Rare.
- 8 (1652) Oak Tree Shilling. Large bushy tree. Crosby 9-l. One of the rarest die varieties. Classed as Rarity 6. The highest rarity rating. Fine to very fine. (Said to have cost \$90.00.)
- 9 1652 Oak Tree **Threepence**. Same type as the Shilling, but with value III under date. Well centered and struck. Fine to very fine. Similar to Crosby 2-A1. Very fine. Excessively rare; classed as Rarity 5. (Cost \$37.50.)
- 10 1652 Oak Tree **Twopence**. Crosby 1-A2. Nearly uncirculated. Slightly off center on obverse as usual, but full legend showing. Reverse, perfectly centered with full beaded border showing. Rare and valuable, especially so choice. Catalogs at \$20.00 in fine condition only. This is worth a great deal more.

SERIES of PINE TREE SHILLINGS

Lot No.

- 11 1652 Pine Tree Shilling. Same type as the Oak Tree but with a pine tree. Variety with open tree trunk. Crosby 1b-C. Unusually large planchet with full beaded borders. Well struck. Very fine. Rare, especially so choice.
- 12 1652 Pine Tree Shilling. Type similar to last. Crosby 1-Ac. Bold impression. Classed as Rarity 4. Very fine. Very rare and valuable. (Cost \$50.00 a number of years ago.)
- 13 1652 Pine Tree Shilling. Crosby 1b-D. Tall tree. Large planchet. Variety with die break in reverse legend. Fine to very fine. Rare and desirable.
- 14 1652 Pine Tree Shilling. Perfect large tree. Crosby 4-F. Uncirculated. Of excessive rarity in this remarkable condition. Classed as Rarity 3. (Cost \$65.00 many years ago.)
- 15 1652 Pine Tree Shilling. Unusually large planchet. Crosby 5b-1. Broad tree. Variety with die break on reverse. Practically uncirculated. Extremely rare so choice. And valuable.
- 16 1652 Pine Tree Shilling. Crosby 5b-1, as last, but tiny die breaks on reverse. A slight variation of this die, not in Crosby. Practically uncirculated with mint luster. Superb specimen. (Said to have cost \$150.00.)
- 17 1652 Pine Tree Shilling. Large broad tree, lower branches irregular. Crosby 5-B2. Extremely fine; unusually bold impression. These Shillings in this remarkable condition are usually classified as uncirculated. This was bought as an uncirculated specimen a number of years ago at \$50.00.
- 18 1652 Pine Tree Shilling. Crosby 7-B3. Classed as Rarity 4. Tall tree. Horizontal die breaks through date. Broad planchet. Fine. Very rare and valuable. Said to have cost \$60.00.

- 19 1652 Pine Tree Shilling. Remarkable large planchet, bold impression. Can be classed as uncirculated, as it only shows the very slightest cabinet friction. Almost complete full beaded border. Crosby 12-I. (Cost \$75.00 and certainly worth it.)
- 20 1652 Pine Tree Shilling. Crosby 12-I but with die break at date. Very fine. Rare. (Cost \$50.00.)
- 21 1652 Pine Tree Shilling. Small planchet, as are the next two lots. Crosby 13-S. Rarity 2. Fine to very fine. Rare.

PINE TREE MONEY; COINS OF MARYLAND

Lot No.

- 22 1652 Pine Tree Shilling. Crosby 14-R. Practically uncirculated. The obverse struck off center at left, but an unusually broad border at right. The reverse is well centered. Classed as Rarity 4. Extremely rare, especially so choice.
- 23 1652 Pine Tree Shilling. Small planchet with broad borders and the largest planchet of the small type. Crosby 22-L. Fine, strictly so for this coin. Perfectly centered. Quite rare so choice.
- 24 1652 Pine Tree **Sixpence**. Same type as shilling, but of course smaller, and value VI. under date. As usual, somewhat off center on obverse. About fine. Crosby 1-A. Rare. (Catalogs at \$25.00. This specimen cost \$22.50 several years ago.)
- 25 1652 Pine Tree **Threepence**. Crosby 2b-B. Perfectly centered and rather large planchet. Classed as Rarity 6. Mr. Wurtzbach states only two or three known. This specimen has a die break on obverse edge between first A and S. Very fine. Of excessive rarity. (Said to have cost \$75.00.)

SILVER COINS of MARYLAND

- 26 (1659) Lord Baltimore **Shilling**. Portrait bust of Lord Baltimore, legend. Reverse, crowned shield dividing value. Slightly imperfect planchet (see reproduction). Extremely fine, nearly uncirculated, with purplish mint luster. Very rare and valuable. Seldom offered. Retail from \$75.00 to \$100.00. The defect in the planchet was there before the coin was struck. From the description in the Stickney Sale (1907), it appears that this is the identical coin from that great collection, where it was claimed that this is one of the finest Lord Baltimore Shillings known.

Silver Coins Issued by I. Chalmers, Goldsmith, Annapolis

- 27 1783 Chalmers' Shilling. Clasped hands within olive wreath, around, I. CHALMERS ANNAPOLIS. Two doves within circle. Reverse, ONE SHILLING 1783. Very good, but center of coin on both obverse and reverse not struck up. Very scarce.
- 28 1783 Sixpence. The excessively rare variety, star within small wreath. Reverse, cross with clasped hands. Only very fair, but of excessive rarity. Cost \$50.00.

Silver Coins Issued by Standish Barry, Silversmith, at Baltimore

Lot No.

- 29 1790 Threepence. Bust in coat and queue facing left; legend, BALTIMORE TOWN. JULY 4. 90. Reverse, in two lines, in center, THREE PENCE. Legend, STANDISH BARRY. Struck slightly off center at left, slightly weakly struck in left center of reverse. Obverse about fine; reverse good to very good. Extremely rare. Catalogs at \$75.00. Seldom offered.

John Law's Mississippi Scheme

- 30 1720 Quarter Crown. Portrait of Louis XV., date below. Reverse, crowned L's formed into cross with fleur de lis in angles. Uncirculated with brilliant mint luster. Rare, especially so choice.

EXCESSIVELY RARE SOMMER ISLANDS SIXPENCE

- 31 (1616) Sommer Islands Sixpence. Hog standing, facing left, value, VI. above; legend, SOMMER ISLANDS. Reverse, sailing vessel to left. Copper. One of best known specimens of this great rarity. Some of the largest collections offered in the past forty years did not have a single specimen. This one came described as "one of the best known" and said to have cost \$165.00.

MASSACHUSETTS COPPER COINS

- 32 **CENTS.** 1787 Indian standing with bow and arrow, COMMONWEALTH. Reverse, eagle with outstretched wings, shield on breast inscribed, in incused letters, CENT. Date below. Legend, MASSACHUSETTS. The so-called horned eagle variety. Crosby 2b-A. Extremely fine, nearly uncirculated, with beautiful glossy surface. Rare so choice. Said to have cost \$10.00.
- 33 1788 Cent. Type as last but perfect die. Crosby 1-D. Very fine, grayish olive surface. As valuable as last.
- 34 1788 Cent. Wide date. Crosby 2-B. Extremely fine, light brown surface. Said to have cost \$15.00.

MASSACHUSETTS COPPER CENTS

Lot No.

- 35 1788 Cent. Wide uneven date. Crosby 3-A. Magnificent uncirculated specimen with original red blended with glossy light brown surface. As beautiful a specimen as I have ever seen, and as such, of extreme rarity and value. When we consider that an early U. S. Cent before 1810, in uncirculated condition, brings up to \$350.00 or \$400.00, this Cent should bring up to \$300.00 mark, as there are far fewer uncirculated specimens of this Cent than there are of the early U. S. Cost \$75.00.
- 36 1788 Cent. Close date. Crosby 8-C. Extremely fine. Very scarce. Cost \$7.00 a number of years ago.
- 37 1788 Cent. Type as last. Date irregular, last 8 high. Crosby 3-C. Extremely fine, glossy olive surface. Cost \$10.00.
- 38 1788 Cent. Crosby 6-N. Spaced date, 17 very close, 88 spaced. Uncirculated; red and light brown. Highest portions show slightest cabinet friction. A gem Cent. Cost \$35.00.
- 39 1788 Cent. Type similar to last; fairly wide date. Crosby 10-L. Nearly uncirculated, olive surface. Rare. (Cost \$15.00.)
- 40 1788 Cent. Close date, last 8 high. Crosby 11-E. Extremely fine, glossy medium dark olive. Rare so choice.
- 41 1788 Cent. Wide spaced date, the 8's slightly slanting. Crosby 11-K. Very fine; light brown surface. Very scarce so choice.
- 42 1788 Cent. Date wide and high. Very fine. Crosby 12-M. Originally purchased from Henry Chapman as extremely fine at \$12.00.
- 43 1788 Cent. Type similar to last with 8's slanting. Uncirculated with glossy brown surface. A magnificent Cent bought at a high price a number of years ago.
- 44 1788 Cent. Unusually large date. So-called small eagle; only five leaves on branch. Extremely fine, nearly uncirculated, but not very boldly struck and slightly off center at right. Very rare variety. Valuable.
- 45 1788 Cent. Small low date, the 788 widely spaced. Magnificent struck specimen, sharp and bold, perfectly centered. Uncirculated; reddish brown surface. A gem, and as such, very rare and valuable.

Massachusetts Half-Cents

Lot No.

- 46 1787 Half-Cent. Same type as the Cent of this issue with the exception of course of the words HALF CENT incused on shield on eagle's breast. Crosby 1-B. Large date. Extremely fine with glossy steel color. Bought a number of years ago at \$15.00.
- 47 1787 Half-Cent. Type as last, small widely spaced date. Crosby 6. Faint hardly noticeable scratch to right of eagle and a very short scratch to right of Indian. Practically uncirculated with glossy proof-like dark steel surface. Very rare die; classed as Rarity 5. (Cost \$10.00.)
- 48 1787 Half-Cent. Large evenly spaced date. Slight depression on body of Indian, probably due to imperfect planchet. Magnificent uncirculated specimen. Beautiful red and olive color. Very rare so choice.
- 49 1787 Half-Cent. Date spaced 17 87. Extremely fine, sharp, with medium dark steel color. Very scarce so choice.
- 50 1788 Half-Cent. Crosby 1-B. Last 8 high. Very fine, sharp; steel color. Rare date. (Cost \$7.00.)
- 51 1788 Half-Cent. Large date. Fine, strictly so, medium surface. Rare variety and rare date.

COPPER CENTS of the STATE of CONNECTICUT

- 52 1785 Cent. First year of issue. Laureated head. AUCTORI. CONNEC. (By Authority of Connecticut.) Reverse, Liberty seated to left, INDE. ET. LIB. (Independence and Liberty). Very wide date. Slightly imperfect planchet at top of reverse. About fine. Scarce.
- 53 1786 Cent. Smaller bust to left. Large date. Very fine; glossy olive. (Cost \$3.15 many years ago.)
- 54 1787 Cent. Type as last. Very small close date, almost microscopic date. About fine; steel color.

UNITED STATES GOLD COINS

TWENTY-DOLLAR GOLD PIECES

Philadelphia Mint

The coinage of Double Eagles began in 1849, in which year only one specimen was minted and it is now in the United States Mint Collection. In 1850 the Double Eagles were minted for general circulation. Coinage continued until 1933, with the exception of the years 1917, 1918, and 1919.

(Bids for less than \$40.00 will not be considered for any Double Eagle)

Lot No.

- 131 1850 \$20.00. First year minted for general circulation. Struck in light yellow gold. Extremely fine with mint luster; just a shade from uncirculated. In much demand, especially so choice. Worth more than its listed price of \$75.00.
- 132 1851 **Brilliant uncirculated**, sharp, with full mint luster, only the very slightest evidence of having been handled with other coins. A most difficult coin to find so choice. Almost a proof.
- 133 1852 Uncirculated, raised borders on reverse with almost full mint luster. Very scarce so choice.
- 134 1853 Extremely fine with some luster.
- 135 1854 Very fine, considerable luster on reverse.
- 136 1855 Extremely fine, only barest touch of circulation. Scarce date.
- 137 1856 Very fine. Scarce, as are all of the early dates of the Philadelphia Mint.
- 138 1857 Extremely fine, sharp; free from any nicks or dents. Very scarce.
- 139 1858 Extremely fine with considerable mint luster. Rare. This coin in proof condition lists up to \$350.00.
- 140 1860 Just a shade from uncirculated. Very scarce.
- 141 1861 Uncirculated with frosty mint surface. Very scarce condition.
- 142 1863 Uncirculated, brilliant; the reverse is almost equal to a proof. Listed up to \$225.00 in proof. A proof specimen in my Dunham Sale brought \$250.00. This one, of course, is not worth anywhere near that amount.
- 143 **1864 Perfect brilliant proof**. Struck in yellow gold. A gem, in perfection and condition. Of excessive rarity; far more so than its listed price of \$200.00 would signify.
- 144 **1865 Perfect brilliant proof, a gem**. Of excessive rarity. As rare and valuable as the 1864. I doubt if more than a dozen specimens of each in brilliant proof condition exist.
- 145 1865 Very fine; the reverse is extremely fine and bold with hardly any evidence of cabinet friction. Very scarce.

UNITED STATES DOUBLE EAGLES

Lot No.

- 158 **1895 Perfect brilliant proof with wire edge.** Extremely rare. Lot No. 179

The Excessively Rare Twenty-Dollar Gold Piece of 1921!

1921 \$20.00. Brilliant uncirculated. Perfect in every respect. Excessively rare. This is a rather "mysterious" great rarity. According to the Mint report an ample quantity was minted, and until about four years ago it was not thought so rare, but very few collectors owned a specimen. However, in a sale held about four years ago, while this coin was then listed at \$150.00, it brought \$285.00.

After making some inquiry, I found that not more than four or five specimens were known to exist and also find that it is one of the rarest of all Double Eagles! It was not in the Hale Collection, although the late Mr. Hale made a practice of securing direct from the mint a specimen of each year as issued. I know of several great collections of Double Eagles in which this rarity is lacking.

Since a 1933 Double Eagle, of which eight or ten specimens are now known to exist and of which a far greater number than the 1921 is reported to have been minted, and to my own personal knowledge a 1933 Twenty sold for \$1,600.00 and I have myself handled two of them at a price well over \$1,000.00, this is the very first specimen of the 1921 Double Eagle that I have ever offered. I really believe that the 1921 is equally as rare and valuable as the 1933 and should bring a correspondingly high price. It would not surprise me to see this coin sell for near the four-figure mark. In the new Standard Catalog it is listed at \$500.00, and I know of more than one dealer who offered that much for a specimen and could not obtain one. In order to save time I have placed a starting bid of \$500.00 on this coin. The new Standard Catalog states that only 4 or 5 specimens are known.

1855 \$20.00. Wass Molitor & Co. Obverse, very **large head**, diadem inscribed W. M. & Co. Date below. Thirteen six-pointed stars. Reverse, small eagle, shield on breast, an olive branch in its right talon and three arrows in its left. 900 THOUS. on small scroll above. Legend, SAN FRANCISCO CALIFORNIA TWENTY DOL. Milled edge. Fine to very fine. Of excessive rarity. Only three specimens known to exist, one of which is in the Yale University Numismatic Collection. Another is in the great Mid-West Collection which will undoubtedly never come on the market in our lifetime. And this one is the only one now available. The specimen in the Mid-West Collection I sold some fifteen years ago for well over \$2,000.00. The specimen in the Yale Collection is from the Lawrence Sale, 1929, where the coin brought \$7,000.00. The specimen here offered is the second best. One of the real great rarities of the Pioneer Gold Series. When we consider the number of specimens known to exist and the still smaller number available, I consider this coin equal in rarity to any Pioneer gold coin. It has a starting bid of \$2,000.00. This coin is originally from the great Virgil Brand Collection of Chicago.

1798 over '97. The excessively rare variety with seven stars to left and six stars to right of bust. **Uncirculated** with full mint luster, brilliant; the field on obverse is not as brilliant as that of reverse. The rarest \$10.00 Gold Piece of the entire series. I do not recall of ever having offered a specimen in my Sales in the past forty-three years. Listed in the 1942 catalog at \$600.00 in only very fine condition. The Excessively Rare Wass Molitor & Co. \$10.00 Gold, Small Head Variety 1852 \$10.00. Wass Molitor & Co. Perfectly formed Liberty head with W. M. & Co. on diadem, date below, thirteen well formed and fairly large six-pointed stars. So-called "small head" variety. Very fine. Of excessive rarity.

In my Sale of the great Dunham Collection a similar specimen brought \$510.00. The coin is listed in the Standard Catalog of 1942 at \$1,000.00. In 1941, when the Dunham Collection was offered, there were only two specimens known. Since then I understand two others were discovered. As far as I know there are only four specimens known today. At one time this coin was listed in the Standard Catalog at \$2,500.00. In the new catalog it lists at \$350.00.

RARE PATTERNS for PIONEER TEN-DOLLAR GOLD PIECES

Lot No.

- 496 **California, 1850, \$10.00.** Baldwin & Co. The rare cowboy type, struck in white metal. Perfect die. About uncirculated. Rare. The gold specimen of this coin has a record up to \$1,000.00. - 497 **Colorado, 1860, \$10.00.** Type with Pikes Peak. From the same die as the gold specimen. Copper. Beautiful iridescent brilliant proof. A gem, and of extreme rarity, far more so than the gold specimen which now brings up to \$100.00.

PATTERNS for the REGULAR ISSUE OF U. S. TEN-DOLLAR GOLD PIECES

The A-W numbers given in the description of the coins refer to the excellent and standard work on the subject by Adams-Woodin. Originally published in 1913. Original copies sell up to \$20.00 each. Price for this indispensable book only \$3.00, plus 15c for postage and insurance.

UNITED STATES FOUR-DOLLAR GOLD PIECES

Lot No.

- 802 **1879 \$4.00 Gold.** Coined only in 1879 and 1880. This coin is the first type with beautiful flowing hair Liberty head. Reverse, star in center on which is inscribed ONE STELLA 400 CENTS. Perfect brilliant proof. A gem. Extremely rare and in great demand. Steadily advancing in value. I know of two specimens which have recently sold at \$300.00 each. The specimen in my last Sale brought \$285.00. Only a limited number was minted, one for each member of the Congress and Senate. The coin is sought after not only by collectors but by non-collectors as well and this explains its value and the great demand for it. Latest record, \$340.00.
- 803 **1880 \$4.00 Gold.** Type with flowing hair. A magnificent brilliant proof and of excessive rarity, as only about twenty specimens were struck. Price steadily advancing. A similar specimen in my last Sale brought \$565.00 and the buyer was willing to go well above \$600.00. Collectors who are interested would do well not to delay adding this beautiful and great rarity to their collection. As one prominent collector recently wrote me, he often bought coins at prices which he thought was a bit high, but soon after he found that he got a real bargain, for the reason that the price advanced considerably. This is probably more true of the \$4.00 Gold Pieces than of any other series.

UNITED STATES THREE-DOLLAR GOLD PIECES

Coinage began in 1854 and coined continuously to and including 1889 at the Philadelphia Mint. In 1854 specimens were coined at the New Orleans Mint. In 1855, '56, '57, and 1860, they were coined at the San Francisco Mint. There were two specimens minted in 1870 at the San Francisco Mint also. And in 1854 specimens were minted at the Dahlonega, Georgia, Mint.

Due to its odd denomination, the \$3.00 Gold Pieces are also in much demand by collectors as well as non-collectors. Their prices have been steadily advancing, so in order to save time, it is well to mention here that bids for less than \$10.00 each will not be considered for any \$3.00 Gold Piece here offered.

- 804 1854 First year of issue. **Brilliant proof.** Struck in yellow gold. The field is very slightly rubbed from cabinet friction. Of excessive rarity in proof condition. I doubt if more than a half dozen specimens are known. It has an old record of \$87.50 and is listed in the 1942 catalog at \$125.00. In fact, these early proofs are almost priceless.

U. S. THREE-DOLLAR GOLD PIECES

- 808 1856 Uncirculated with frosty mint luster
- 809 1857 Uncirculated, brilliant, with semi-proof surface on reverse. Quite rare so choice.
- 810 **1858** Extremely fine, some luster. Very rare; far more so than is generally recognized. I recently saw an uncirculated specimen priced at \$85.00.
- 811 1859 Uncirculated with full mint luster. Very scarce so choice.
- 812 1860 Uncirculated, full frosty mint luster. Very scarce, especially so choice.
- 813 1861 Uncirculated, sharp, with semi-proof surface. Almost equal to a proof. Rare and valuable.

- 816 1864 Uncirculated with frosty mint surface. Rare so choice. Very limited coinage.

- 819 1867 Brilliant semi-proof, almost equal to a proof. Limited coinage. Very rare so choice.
- 820 1868 **Brilliant proof.** Very rare. Catalogs at \$40.00 and worth much more today.
- 821 1869 Brilliant semi-proof; almost equal to a brilliant proof. Two pin-point nicks on obverse, hardly noticeable. Rare so choice. A similar specimen brought \$20.00 in my Dunham Sale over two years ago. Certainly worth more today. Listed at \$40.00 in proof.
- 822 1870 **Perfect brilliant proof.** Wire edge. Very rare and valuable. Listed at \$35.00.
- 823 1871 **Perfect brilliant proof.** Very rare, especially so choice. Only 1,330 coined. An uncirculated specimen brought \$15.00 in my Dunham Sale. This one is worth at least four times as much.

THREE-DOLLAR GOLD PIECES

Lot No.

- 824 1872 **Perfect brilliant proof.** Wire edge on obverse. Rare in proof. Listed at \$40.00.
- 825 **1873** Fine to very fine. Originally struck as a proof. Only 25 specimens said to have been struck. I doubt if this mint report is correct, but the coin is one of the rarest of the series and is listed up to \$150.00. Recent record for a proof, \$210.00.
- 826 1874 **Brilliant proof.** One of the least dates in rarity, but excessively rare in proof condition. Far more rare than its listed price of \$50.00 would signify.
- 827 1874 Another as last. Perfect uncirculated with frosty mint surface.
- 828 **1876 Beautiful brilliant proof.** The second rarest date of the entire series. Only 45 specimens said to have been struck, but a far greater rarity than the 1873 of which the mint reports only 25 were coined.

- 829 1877 **Perfect brilliant proof** with sharp wire edge. As perfect as the day it was minted. Truly a gem, and as such, a far greater rarity than generally recognized. Auction record up to its full listed price of \$150.00, but I know of private sales exceeding that amount. Latest record, \$300.00.
- 830 1878 **Brilliant proof.** As far as the date is concerned, it is the least rare of the entire series, but in proof condition I consider it one of the rarest. It is listed at \$100.00, but from an exhaustive research extending for more than fifty years of sale catalogs, I feel safe in stating that this coin in proof condition is far more rare than any \$3.00 gold piece of the Philadelphia Mint with the only exception of 1875.
- 831 1879 **Brilliant proof,** wire edge. Rare so choice. Only a limited number minted. Listed at \$25.00 and worth more.
- 832 1880 **Sharp brilliant proof,** wire edge. Only 1,036 minted. Rare, especially so choice.
- 833 1881 **Brilliant proof.** Very rare. Only 550 coined. Catalogs at \$40.00.
- 834 1882 **Beautiful perfect brilliant proof,** yellow gold; raised borders and wire edge. Only 1,540 minted. Rare and valuable.
- 835 1883 **Perfect brilliant proof.** A gem. Raised borders and high wire edge. Only 940 specimens minted in all.
- 836 1884 Brilliant semi-proof; just about equal to a perfect proof. Only 1,106 minted. Rare. Listed at \$30.00 in proof.
- 837 1885 **Brilliant proof.** Only 910 minted. Wire edge. Rare and valuable. Listed at \$35.00. Selling for much more now.

THREE-DOLLAR GOLD PIECES**

- 842 1854 **Dahlonega, Georgia, Mint.** Mint letter D below wreath on reverse. Only year of the \$3.00 gold pieces struck at this mint. Extremely fine with some luster and unusually bold impression. Free from any nicks or dents. One of the most attractive specimens of this rarity that I have seen in many a day. Very rare. Catalogs at \$50.00 and certainly worth it.

PATTERN U. S. THREE-DOLLAR GOLD

- 848 1872 Pattern \$3.00. Beautiful head of Liberty, date below, thirteen stars. Reverse, small standing eagle supporting shield with its left talon. Value, THREE DOL. below, UNITED STATES OF AMERICA. Copper, gilded. Looks just like a gold specimen. Raised borders. Brilliant semi-proof, almost equal to a proof. According to records, only one specimen is known in gold for which \$1,500.00 was paid about twenty years ago. Of course, the specimen here offered in copper gilded, is not worth anywhere near that much, but it is rated as Rarity 12. Only about eight specimens minted. And in my humble opinion, its design is far superior from an artistic point of view than that of the adopted design. A-W 1225. Of extreme rarity.

With the possible exception of the 1841 and 1863 Quarter-Eagles, this is the rarest Quarter-Eagle of the entire series. And in this remarkable condition, it is truly a gem and worthy of its highest record. I know of one specimen which sold for \$850.00 more than ten years ago. One of the real rarities of the entire U. S. gold series. Probably not more than ten to twelve specimens known.

Lot No.

Lot No. 898

The Exceedingly Rare Quarter-Eagle of 1863

1863 \$2.50 Gold. Perfect brilliant proof gem. Perfectly centered with raised borders and partly wire edge. Struck in yellow gold. A total of **only 30 specimens were struck** in all. Probably all were struck on order from collectors. This gives us an idea how rare the early proof gold coins are today. I doubt if more than ten or twelve specimens are known to exist of this coin now. I consider it as rare as any Quarter-Eagle. It is listed now at \$1,000.00 and I know of a specimen that has sold for more. Only available when great collections come on the market. This specimen is truly a gem and worthy of its highest record. Its acquisition will prove not only a most gratifying source of possession but a good investment as well.

SAN FRANCISCO MINT \$2.50 GOLD PIECES

Coinage began in 1854 and discontinued in 1879. None were minted in 1855, 1864 and 1874.

Lot No. 1001

The Exceedingly Rare 1854 San Francisco Mint \$2.50 Gold

1854 \$2.50 Gold, S Mint. First year of issue of this Mint. The first specimen of this great rarity ever to be offered at auction. Only 246 specimens minted. Until 1910 not a single specimen of this coin was known to exist in any collection. I discovered one specimen in about good condition, through my extensive advertising. It was sold to John Clapp of Washington at over \$500.00. About ten years later a second specimen was also discovered by me and sold at a much higher price. Since then I believe that one or two other specimens were discovered. In all, I am sure that not more than five specimens are known to exist, including the one here offered. This specimen is in fine condition, strictly so. I know of one specimen which was offered sometime ago for \$650.00. Considering the number of specimens minted, and the number now known to exist, I consider it the rarest of all Quarter-Eagles. A coin that is really worth up to the four-figure mark.

MAGNIFICENT COMPLETE COLLECTION of UNITED STATES GOLD DOLLARS

The Most Beautiful Complete Set I Have Ever Offered Philadelphia Mint

Coined from 1849 to 1889 inclusive.

- 1032 1849 Variety with open wreath and so-called small head and small stars on obverse. Brilliant semi-proof. The obverse is almost equal to a brilliant proof. Very rare in this gem condition. Record over \$10.00.

GOLD DOLLARS, 1849 TO 1860

Lot No.

- 1033 1849 Open wreath. Trifle larger head and stars trifle larger. Brilliant uncirculated. Pin-point nick on upper left edge. A little gem.
- 1034 1849 Second type, closed wreath. Uncirculated with brilliant luster. Rare. This is supposed to be more rare than the open-wreath variety.
- 1035 1850 Uncirculated with full frosty mint luster. A scarce date in rare condition.
- 1036 1851 Uncirculated with full mint luster.
- 1037 1852 Uncirculated, frosty mint surface. Very scarce so choice. These gold dollars are now again in great demand and prices are steadily advancing.
- 1038 1853 Uncirculated with brilliant mint luster.
- 1039 1854 Type as last, small. Uncirculated with full mint luster.
- 1040 1854 Second type, larger planchet and Liberty head with Indian headdress. Uncirculated, frosty mint surface. Very scarce so choice. Brings more than its listed price of \$5.00.
- 1041 **1855** Believe it or not, a **perfect brilliant proof**. This is not a brilliant uncirculated piece but a real honest-to-goodness proof struck in yellow gold and truly a gem. Of excessive rarity in this remarkable condition. It is difficult to place a value on a coin of this kind, as I doubt if more than a half dozen specimens are known. But I do know that there are far fewer brilliant proofs of this gold dollar than there are of the 1861 D which has a record of \$300.00, and certainly far more rare than the 1875, which now catalogs at \$200.00.
- 1042 1855 Uncirculated with full mint luster. Very scarce.
- 1043 1856 Variety with upright 5 in date. Uncirculated, frosty mint surface. Very scarce. A similar specimen in my last sale brought \$7.35.
- 1044 1856 Slanting 5 in date. Uncirculated, perfect with full mint luster.
- 1045 **1857 Perfect brilliant proof**. Excessively rare in this remarkable condition. Sharp wire edges. Everything said about the 1855 brilliant proof is true of this coin.
- 1046 1857 Uncirculated, full mint luster. A beautiful specimen. Very scarce so choice.
- 1047 1858 Uncirculated. Very scarce date in rare condition.
- 1048 **1859 Perfect brilliant proof**. Sharp wire edges. Extremely rare and certainly worth far more than its listed price of \$25.00. I doubt if there are as many proofs of this date as there are of the 1875. I know one thing, that in my own experience, I have handled at least ten 1875 proofs to one proof of this date.
- 1049 1859 Uncirculated. Beautiful mint luster.
- 1050 1860 Struck in yellow gold. **Perfect brilliant proof**. A gem and of great rarity in this remarkable condition. Listed at \$35.00.

GOLD DOLLARS, 1860 TO 1870

Lot No.

- 1051 1860 Uncirculated with full frosty mint luster. Raised borders. A similar specimen in my last sale brought \$7.50. Now catalogs at \$10.00.
- 1052 1861 **Perfect brilliant proof** with sharp wire edge. Extremely rare in this remarkable condition. Listed at \$40.00.
- 1053 1861 Uncirculated with full mint luster. As perfect as the day it was minted.
- 1054 1862 **Proof.** Not a rare date, but extremely rare in proof condition.
- 1055 1862 Uncirculated with full mint luster. As perfect as the day it was minted.
- 1056 **1863 Perfect brilliant proof** with wire edge. Struck in yellow gold. Excessively rare in brilliant proof condition. An uncirculated specimen in my last sale brought \$70.00. This one is worth at least double. (Cost \$90.00.) An extra fine specimen recently brought at auction \$95.00. This one is at least ten times as rare and valuable.
- 1057 1864 Uncirculated with full frosty mint luster. A beautiful specimen of this rarity. Catalogs at \$40.00.

- 1058 1865 **Perfect brilliant proof;** sharp wire edges. Extremely rare and valuable. An uncirculated semi-proof specimen in my last sale brought \$67.50 and the buyer was willing to pay more. This coin, therefore, is certainly worth \$100.00 at which price it now catalogs. Recent record, \$150.00.
- 1059 **1866 Perfect brilliant proof.** Struck in yellow gold. Extremely rare in this wonderful condition. Catalogs at \$50.00 and worth much more. (Cost \$50.00).
- 1060 **1867 Beautiful perfect brilliant proof.** Listed at \$60.00 but worth much more. I'm quite certain that during these years when gold was at such a high premium and so few collectors of gold, that probably not more than about thirty or forty proofs were struck in all. I believe the day is not distant when these rare proofs will all bring near the \$100.00 mark. They have all more than doubled in value in the last few years.
- 1061 1868 **Brilliant proof.** Very rare so choice. Listed at \$40.00.
- 1062 1869 **Proof** with almost full brilliancy. A very difficult date to find choice. Only a very fine specimen in my last sale brought \$18.50. Proof specimen rate at least ten times as rare as a very fine specimen. Listed now at \$40.00.
- 1063 1870 **Perfect brilliant proof** with sharp wire edge. Rare and valuable. Worth far more than its listed price of \$30.00. Recent record for an uncirculated, \$40.00.

- 1065 1872 **Brilliant proof** with raised borders and partly wire edge. Just as rare as last.
- 1066 1873 Uncirculated with bright mint luster. Very scarce so choice. Brings far more than its listed price of \$4.00.
- 1067 1874 **Brilliant proof.** One of the least rare dates, but in brilliant proof condition it is extremely rare. Seldom offered and very valuable.

Lot No. 1068

1875 The rarest date of the Philadelphia Mint Gold Dollars. Only 420 coined. And undoubtedly only a fraction of that number in proof. **Perfect brilliant proof.** Extremely rare and in great demand. Last record \$150.00, but I know of inferior specimens which have sold at private sale at \$175.00. Now catalogs at \$200.00.

- 1069 1876 **Perfect brilliant proof.** Struck in yellow gold. Raised borders and wire edge. Although this coin was listed at \$15.00, a specimen not as choice in my last sale brought \$17.00 and the bidder was willing to go much higher.
- 1070 1877 **Brilliant proof.** Very limited coinage. Very rare. Last record \$17.00 but worth more in this beautiful condition.
- 1071 1878 **Brilliant proof.** Raised borders. A gem, and as such, rare and valuable. One of the most difficult dates to find in proof condition. Catalogs at \$25.00.
- 1072 1879 **Perfect brilliant proof.** Rare. Listed at \$15.00 and should bring more.
- 1073 1880 **Perfect brilliant proof.** Only 1,636 minted. One of the rarities of the later-date gold dollars. Catalogs at \$20.00.
- 1074 1881 **Perfect brilliant proof.** A gem. Although this coin was listed at only \$10.00, in 1942, a similar specimen, but not as choice, in my last sale brought \$17.00.
- 1075 1882 **Perfect brilliant proof gem.** There were about 2,000 specimens less minted than that of 1881. Rare and valuable.
- 1076 1883 Struck in reddish gold. Magnificent **perfect brilliant proof.**
- 1077 1884 **Perfect brilliant proof,** sharp wire edge. Rare in this remarkable condition.

COMPLETE COLLECTION of BRANCH MINT GOLD DOLLARS

The Most Beautiful Set I Have Ever Offered

GOLD DOLLARS of the CHARLOTTE, N. C., MINT

The Charlotte Mint was established in 1838 and discontinued in 1861. Gold Dollars were minted in six years. 1849 to 1853 inclusive; 1855, 1857, 1859.

- 1083 1849 Mint letter C below wreath, as all are. This specimen seems to be of an **entirely new variety**. It is **open wreath** and the stars on obverse are smaller; the borders are raised, making the coin appear somewhat thicker than the regular issue. **Uncirculated** with brilliant luster. Almost equal to a proof. Struck in light yellow gold. I unhesitatingly say that this coin is of excessive rarity, if not unique. (Not listed in the new 1944 Standard Catalog.)
- 1084 1849 The usual variety with closed wreath; trifle larger stars. Fine to very fine with unusually bold impression on reverse. A similar specimen, but not as choice, in my last Sale brought \$10.00. Now listed at \$12.50. Recent record, \$22.00.
- 1085 **1850** The rarest date of this Mint. And this specimen is **practically uncirculated** with mint luster. The rarity of this coin was not recognized until just a few years ago when it was listed at only \$10.00. The 1942 catalog lists it at \$35.00 and a very fine specimen in my last sale brought its full listed price. But this coin is far superior. In fact it is the most beautiful specimen of this date and mint gold gollar I have ever seen and should bring a much higher price than it is now cataloged for, \$40.00, in only V. F. condition. (This specimen cost \$50.00.) Recent record, \$95.00.
- 1086 1851 **Uncirculated** with full mint luster. Sharp with raised borders. Just as perfect as the day it was minted. In this choice condition I consider it very rare.
- 1087 1852 **Uncirculated** with full mint luster. Very rare so choice.

C. MINT GOLD DOLLARS, AND DAHLONEGA MINT

Lot No.

- 1088 1853 Practically uncirculated with almost full mint luster. Rare. A similar specimen brought \$15.00 at my last Sale.
- 1089 1855 Uncirculated but the reverse as usual not as bold as the rest of the coin. Very rare in this choice condition. (The mint report states that four specimens of the gold dollars were minted at this Mint, but not a single specimen is known to exist in a collection.)
- 1090 1857 Practically uncirculated with considerable luster. Rare, especially so choice. Listed at \$22.50 in only very fine. Recent record for a V. F., \$27.50.
- 1091 1859 Beautiful uncirculated specimen. The obverse is of the type die as that of the Dahlonega mint gold dollars, with broad border. Extremely rare so choice. A specimen not as choice as this one brought \$26.00 in my last sale.

COMPLETE SET of DAHLONEGA, GA., MINT GOLD DOLLARS

Undoubtedly As Beautiful A Set As Exists

The gold dollars at this Mint were minted from 1849 to 1861, when the Mint was discontinued. All gold dollars of this Mint are rare and some are of excessive rarity.

- 1092 1849 First year of issue. Open wreath, as all are. **Beautiful uncirculated specimen.** Very rare so choice. Catalogs at \$12.50 in only very fine. This one is certainly worth a great deal more.
- 1093 **1850 Beautiful uncirculated specimen;** sharp with mint luster. Very rare in any condition, but especially so when uncirculated. A similar specimen not as choice brought \$31.00 in my last Sale. This coin advanced in value about four times in the past few years, and I think its present price level is still in its infancy. (Cost \$40.00.) Recent record for one not as choice, \$90.00.
- 1094 1851 Variety with die breaks on reverse. Uncirculated with mint luster. High raised borders. Catalogs at \$15.00 in very fine. Recent record, \$60.00.
- 1095 1852 Brilliant uncirculated with proof surface. The reverse is almost equal to a proof. Very rare so choice. Recent record for only a V. F. specimen, \$34.00.
- 1096 1853 **Brilliant uncirculated.** Very rare so choice. Recent record for a V. F., \$40.00.
- 1097 1854 Extremely fine; sharp. Only a shade from uncirculated. Very rare. Recent record for equal specimen, \$120.00.
- 1098 **1855** Very fine. Excessively rare. The figure 8 in date, as usual, is weakly struck. Catalogs at \$150.00 in very fine. This specimen is certainly worthy of its highest listed price. (Cost \$200.00.)

DAHLONEGA AND NEW ORLEANS GOLD DOLLARS

- 1101 1858 **Uncirculated;** the highest portion of head shows just the very slightest evidence of cabinet friction. Unusually bold impression, especially for this date. The date is struck up bold. Perfectly centered and perfect raised borders. Extremely rare so choice and a most difficult date to find in this remarkable condition. Recent record for Ex. F., \$90.00. This one certainly worth more.
- 1102 1859 **Uncirculated** with semi-proof surface. Very rare. A similar specimen in my last Sale brought \$36.00.
- 1103 **1860 Uncirculated** with brilliant luster. Probably the rarest gold dollar of the entire series. In this beautiful condition it is of the greatest rarity. Listed at \$200.00 in only very fine. This specimen should bring a new record. Only a V. F. specimen recently brought \$200.00.
- 1104 1861 **Uncirculated** with full mint luster. The highest portions of Liberty head show just the barest touch of cabinet friction. Perfectly centered and well struck. A gem and of the highest rarity. An old record of over \$300.00. Now listed at \$225.00 in only very fine.

1870 The most beautiful and perfect specimen of this, the rarest gold dollar of this mint, that I know of. It is a **perfect brilliant proof**. Raised borders. Perfect in every respect. It is supposed that no proofs were struck at the branch mints. This may and may not be true, but this specimen is certainly everything I claim for it as above described. It is the most remarkable specimen of this rarity I have ever seen, and as such, it is worthy of a new high record for it. BEAUTIFUL SET of FIFTY-DOLLAR GOLD PIECES

Issued in California in 1851, 1852, and 1855 only.

**\$50.00 GOLD PIECES ISSUED by AUGUSTUS HUMBERT
UNITED STATES ASSAYER of GOLD in CALIFORNIA**

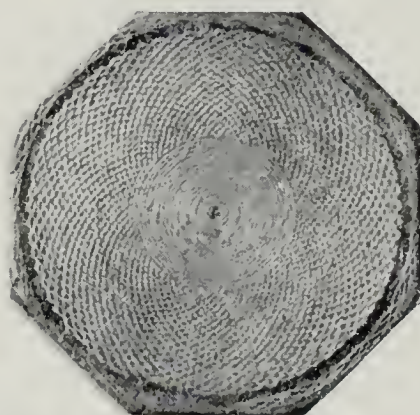

Lot No. 1327

1851 \$50.00. Obverse, eagle with outstretched wings, standing on rock, supporting U. S. shield. Scroll in beak, the scroll inscribed LIBERTY. 50 D. C. below. Scroll above inscribed in incused, stamped-in letters, 880 THOUS. Legend, UNITED STATES OF AMERICA. The edge is inscribed, in incused letters, AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA 1851. Reverse, engine-turned design with small target in center. Obverse with raised borders. Weight, 1310 $\frac{1}{2}$ Grains. Practically uncirculated. Very slight hardly noticeable nicks on obverse. Octagonal, as all are. One of the finest specimens known of this variety. Said to have cost \$750.00. Of extreme rarity, especially in this choice condition.

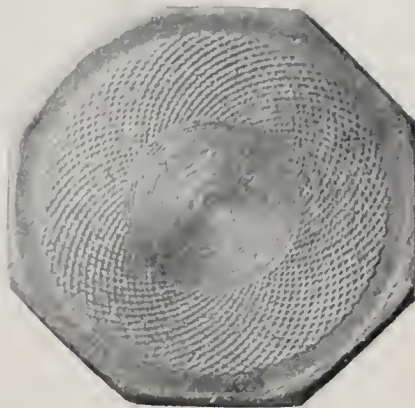

Lot No. 1328

1851 \$50.00. Obverse, same type as last, but with **887 THOUS.** on scroll above eagle and 50 incused or stamped in center of target of reverse. Magnificent uncirculated specimen. The raised borders show slight cabinet friction. Excessively rare. One of the rarest varieties, if not the rarest, of all octagonal Fifty-Dollar Gold Pieces. The obverse is a brilliant semi-proof surface, almost equal to a proof, and the reverse is with almost full mint luster. Never touched for improvement purposes. Weight, 1308½ Grains. A similar specimen but the raised borders of which were slightly re-touched in my Grinnell Sale, brought \$892.50. The coin is really at least a \$1,000.00 item.

Lot No. 1329

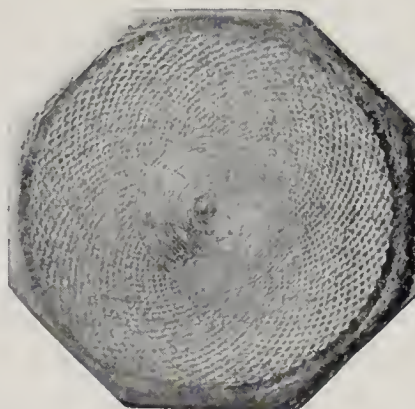

1851 \$50.00. Obverse, eagle as on the preceding specimens, but with value below eagle, FIFTY DOLLS. All within circle with legend around, AUGUSTUS HUMBERT UNITED ASSAYER OF GOLD CALIFORNIA 1851. Variety with 880 THOUS. on scroll above eagle. This is not stamped in but is in raised figures and letters. The edge is milled. Reverse, engine-turned design, somewhat coarser than on the preceding specimens, with larger target in center. **Uncirculated,** with frosty mint surface. Weight, 1319 grains. The small lettering on the outside border is unusually well struck. This variety was not in the Grinnell Sale. Extremely rare, especially so choice. Record for this variety and condition up to \$1,000.00.

Lot No. 1330

1851 \$50.00. Type just as last, but with 887 THOUS. on scroll above eagle. Milled edge. The reverse, however, is entirely different. The engine-turned part is smaller, giving it a much wider border, and the target is much larger. Weight, 1299¼ grains. Obverse, very fine. Reverse, extremely fine. Cost \$345.00 several years ago. Very rare and valuable and now in great demand.

**FIFTY-DOLLAR GOLD PIECES MINTED BY THE UNITED STATES
ASSAY OFFICE of GOLD IN SAN FRANCISCO**

Lot No. 1331

1852 \$50.00. Obverse, same general type as the preceding specimens. 887 THOUS. on scroll above eagle. Inscription around border, UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA 1852. **Magnificent uncirculated specimen**, with full brilliant mint luster, the obverse a semi-proof. Has never been re-touched. Almost as perfect as the day it was minted. Truly a gem. Weight, 1309 grains. This rare coin in its remarkable condition is of excessive rarity and of highest value. Far superior to any octagonal slug I have offered in more than a quarter of a century. A similar specimen, fourteen years ago, brought \$675.00. This gem should bring a great deal more today.

Lot No. 1332

1852 \$50.00. Type as the preceding specimen but the rare variety with 900 THOUS. on scroll above eagle. Strictly very fine. A minute nick on right obverse edge and a very slight die nick on reverse. Far above the average for this rare coin. Just about as choice as the specimen in my last Sale which brought \$367.50.

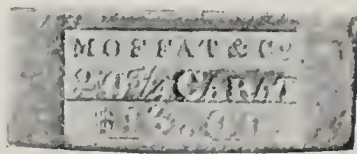

**MAGNIFICENT FIFTY-DOLLAR GOLD PIECE
ISSUED by WASS, MOLITOR & COMPANY**

Lot No. 1333

1855 \$50.00. Round. Head of Liberty to left, date, 1855, below. Thirteen perfect six-pointed stars around. Reverse, wreath enclosing value, large 50 and DOLLARS. On small scroll above, 900 THOUS. Around, SAN FRANCISCO CALIFORNIA. WASS MOLITOR & CO. Milled edge. Usually this rare coin is found with the word DOLLARS very weakly struck or hardly visible. On this specimen it is bold. The highest portions show only the slightest touch of cabinet friction. With the exception of minute unimportant nicks the coin could be classed as uncirculated, as it has considerable original mint luster. No serious nicks or dents on edge. Certainly equal to if not superior to the specimen in my last Sale which brought \$810.00. Worthy of a home in any collection, and as choice a specimen of this rare and beautiful coin as I have ever offered in my forty-three years of numismatic experience.

\$16.00 Gold. Undated, but issued in 1849, the first gold coin to have been struck in California. Oblong gold ingot for \$16.00. This being the standard unit of exchange in California at that time. Two oblong incused, finely milled, tablets. On the upper one, MOFFAT & CO. The lower one has the value, \$16.00, incused or stamped in with the exception of the \$ mark which is raised. Between these incused tablets, on raised tablet, is incused, 20 3/4 CARAT. Reverse is blank. Extremely fine with some mint luster. Of excessive rarity. A specimen in the Lawrence Sale, in 1929, brought \$1,000.00, and it was there stated that only about ten specimens are known to exist. The first in my Sales in probably about a quarter of a century. One of the most interesting and historical gold coins issued in the entire world.

UNITED STATES SILVER COINS

SILVER DOLLARS of the PHILADELPHIA MINT

Coinage of silver dollars at the Philadelphia Mint began in 1794 and discontinued in 1804. In 1836 to 1839 the Flying Eagle Pattern Dollars were minted. Regular coinage was resumed in 1840 and discontinued in 1873. Coinage was resumed in 1878 and coined continuously until 1904, in which year the coinage was discontinued and was not resumed until 1921, and coined to 1928 inclusive. Dollars were also minted in 1934 and 1935, but none have been minted since. The Silver Dollars were also minted at the Branch Mints of New Orleans, Carson City, San Francisco and Denver. They are cataloged each Branch Mint separately.

- 1512 1862 Perfect brilliant proof. Very scarce. Catalogs at \$13.50. It isn't so very long ago when these proof Dollars were obtainable at about \$2.50 to \$3.50 each, and I believe that their present catalog prices will seem insignificantly low in the near future, as only a very limited number were struck in proof and a still smaller number now exist.
- 1513 1863 Brilliant proof. Very scarce. Listed at \$13.50.

- 1527 1880 Perfect brilliant proof.

|------|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1629 | 1870 | First year of issue. Beautiful brilliant semi-proof, almost equal to a brilliant proof. Catalogs at \$25.00 in uncirculated condition. This one certainly worth a great deal more. |
| 1630 | 1873 | Extremely fine; well struck; free from any nicks or dents of any kind. Very rare. Catalogs up to \$75.00 in uncirculated, and \$25.00 in very fine. |

| 1641 | 1891 | Brilliant proof. Yes, I know, that proofs were not supposed to have been struck at the branch mints, but this is just as perfect a brilliant proof as any silver Dollar, so apparently it must have been a very early impression of the die. Ordinarily not a rarity, but I consider it very rare in this remarkable condition. |

PROBABLY UNIQUE COUNTER-STAMPED U. S. SILVER DOLLAR

Lot No.

- 1643 1799 Silver Dollar with round counterstamp of Benjamin Franklin (see above illustration). Reverse, the portion of the counterstamp blank. The first and only specimen I have ever seen. Undoubtedly contemporary. The Dollar is good to very good, but the counterstamp is extremely fine or about uncirculated. Of highest numismatic and historical interest. It is difficult to place a value on a coin of this kind, but I would say that \$50.00 would be a fair price for it.

UNITED STATES SILVER TRADE DOLLARS

These Dollars were minted for circulation in the far East to compete with the Mexican Dollars. They are our heaviest Dollars issued. But the people in the far East did not take to them kindly and they were recalled and demonitized in 1887. They were minted from 1873 to 1878 for general circulation. In 1878 to 1883 they were issued in proofs only, and about thirty-five years ago a few specimens were discovered minted in 1884 and 1885. These two last dates are of great rarity. Those of the Philadelphia Mint, in proof condition, are now very scarce and steadily advancing in value. In fact they have always brought more than they were cataloged for in the Standard Catalog.

- 1644 1873 First year of issue. Perfect brilliant proof with wire edge. Quite rare so choice. Now listed at \$10.00. Last listed price was only \$6.50, but they always brought more than their catalog price. Record, \$14.00.
- 1645 1873 S Mint. Brilliant uncirculated. Almost equal to a proof. Very slightest evidence of handling; a pin-point nick on obverse. But certainly a gem of this coin, as it is very rare in this beautiful condition. Now catalogs at \$25.00.
- 1646 1873 S Mint as last, but with one Chinese chopmark on lower reverse. Brilliant uncirculated. Very rare so choice.
- 1647 1874 Perfect brilliant proof with sharp wire edge. Scarce so choice. Catalogs at \$10.00.
- 1648 1874 Carson City Mint. Uncirculated with frosty mint surface. Quite rare. Catalogs at \$15.00 and difficult to obtain even at this price.
- 1649 1875 Perfect brilliant proof with wire edge. Very scarce. Catalogs at \$10.00.

THE FAMOUS and HISTORICALLY INTERESTING LESHER "DOLLARS"

(Condensed from historical article by Mr. Farran Zerbe, published in the
American Journal of Numismatics in 1919.)

These coins were struck in 1900 and 1901 by Joseph Leshner of Victor, Colo., for commercial use. As a late private issue of silver coins for exchange purposes was the idea and product of an advocate of free coinage of silver, and for a time performing the service of money in central Colorado. These coins contributed an extraordinary and interesting addition to American numismatics.

The entire issue did not exceed three thousand specimens. They are now scarce and in demand. No series has developed more persistent inquiry for facts and specimens by collectors. The neighborhood of their production and the localities where they were issued have been repeatedly canvassed in the past ten years, but comparatively few specimens in proportion to reasonable expectations have been obtained and located. The record of those in collections and appearing in numismatic sale catalogs for the last decade, aggregate less than one hundred specimens.

Although these coins were struck in 1900 and 1901, the first published numismatic notice of them was in the H. G. Brown Sale in 1904, by Lyman H. Low. Mr. Low referred to them "probably but little thought of today, but I judge a few years hence all will be among the rarities sought for." It is appropo to record that Mr. Low scored as a prophet, the very specimens Mr. Low mentioned would be worth today (1919) five or six times the prices they brought in 1904.

Mr. Zerbe states in his article that there was not a single complete collection in existence at that time (1919). He also states that this emphasizes the rarity of some of the varieties, since for more than ten years completeness has been the aim of six collectors, some of whom had made special trips to Colorado in an endeavor to discover specimens lacking in their collection.

In the words of Mr. Zerbe, so long as metal shall endure in the form of coin or medal, and there are collectors to prize them, Joseph Leshner and his "Dollars" will be remembered; and in the annals of Colorado history he will trail after Clark, Gruber, Conway, and Parsons, as a private coiner of that State.

In my opinion these coins are just as much a part of the Pioneer or Private Issue Series as are the privately minted gold coins of Colorado, California, Oregon, Utah, Georgia and Carolina.

The collection here offered is the largest and most complete ever offered to the numismatic public, and contains varieties unknown to Mr. Zerbe in 1919.

REMARKABLE COLLECTION of the RARE LESHER "DOLLARS"

All are octagonal in shape, 35 millimeters in size, and weigh 412½ grains, the weight of standard U. S. Silver Dollar.

The 1900 Issues

Only one hundred specimens were struck of this variety, numbered consecutively 1 to 100. These were widely distributed and few, if any, are now available, especially in choice condition. Uncirculated with mint luster. Said to have cost over \$100.00 but not worth that much today, although it regularly sold for about \$50.00.
- 1686 1900 Second type and classed as variety No. 2, Bumstead type. Obverse, mountain mining scene, in two lines at top, PIKES PEAK SILVER MINE; below, in six lines, A COMMODITY WILL GIVE IN EXCHANGE MERCHANDISE AT A. B. BUMSTEAD. The number of this piece is 162. - 1687 1900 Bumstead type, second reverse, without scrolls on either side of seal. According to Mr. Zerbe, these were numbered from 600 to 1000, but this specimen is No. 1013. Uncirculated, sharp, with mint luster. Rare.
- 1688 1900 The so-called Bank type, classed as the fourth variety. On the obverse; below the mining scene, A COMMODITY WILL GIVE MERCHANDISE OR CASH AT ANY BANK. AT BULLION VALUE. No. 1563. According to Mr. Zerbe, Mr. Lesher informed him that but five specimens were struck and the Bank idea was abandoned, as it was inviting trouble as well as government interference. Beautiful uncirculated speci-

men and extremely rare. A similar specimen in my Cowell Sale, in 1923, brought \$68.50. Only four specimens were known.

The 1901 ISSUES

Lot No.

- 1689 1901 No. 5 variety. The so-called imprint type. Obverse, mining scene as last. Below, in four lines, IN THE PEOPLE WE TRUST. A COMMODITY WILL GIVE IN EXCHANGE MERCHANDISE AT. A blank space for imprint; at bottom, No. with line for number. Reverse similar to last. Very good. Extremely rare.
- 1690 1901 Variety as last, but numbered No. 8. Practically uncirculated. Very rare. Seldom offered. I doubt if as many as ten specimens exist today.
- 1691 1901 Variety No. 6. Same type as last, but stamped J. M. SLUSHER. CRIPPLE CREEK. COLO. No. 248. A similar specimen in my Sale of the Cowell Collection in 1923, twenty years ago, brought \$29.00. Worth a great deal more today.
- 1692 1901 Variety No. 7. Type as last, but with imprint in large letters, SAM. COHEN. VICTOR. COLO. The number of the coin is 418. Practically uncirculated with proof surface. Extremely rare. A very fine specimen in my Cowell Sale brought \$63.00.
- 1693 1901 Variety No. 7, as last, but the imprint double-struck, 1 being upside down. Number of the coin is 429. About fine. Excessively rare. Probably unique.
- 1694 1901 Variety No. 8. Type as last, but imprint, D. W. KLEIN & CO. PUEBLO. COLO. The number of coin, 1068. Very fine. Excessively rare. In my Sale of the Cowell Collection, in 1923, it was stated that only three specimens were known, one of which is worn smooth. The specimen in the Cowell Sale brought \$84.00. That was twenty years ago.

LESHER "DOLLARS"; U. S. HALF-DOLLARS

Lot No.

- 1696 1901 Variety No. 10. Type as last, but with imprint of BOYD PARK. DENVER. COLO. Number of coin, 646. Almost a brilliant proof. Apparently only 200 specimens were struck in all. A similar specimen in the Cowell Sale, but not as choice, brought \$23.50. Worth at least double today.
- 1697 1901 Variety No. 10, as last, but without number. Very fine. Excessively rare.
- 1698 1901 Variety No. 11. Same variety as last, but with imprint, in three lines, W. C. ALEXANDER. JEWELER. SALIDA. COLO. This coin is numbered **No. 1**. Very fine. Of excessive rarity. This particular variety is found numbered 1 to 50, so apparently only fifty specimens were struck. But at the time that the Cowell Collection was offered, only two specimens were known. The one in the Cowell Sale brought \$63.00. The specimen here offered is of far greater value since it is No. 1.
- 1699 1901 Variety No. 12. Type as last, but with imprint of GOODSPEEDS & CO. 26 PIKES PEAK AVE. Number of this coin is 27. Not in the Cowell Collection, and when Mr. Zerbe prepared his excellent article on the subject, in 1919, only one specimen was known to exist.
- 1700 1901 Variety unknown to Zerbe when he prepared his article in 1919. Type as last, but with imprint W. F. WHITE MERC. Co. GRAND JCT. COLO. The number of this coin is 2. Extremely fine. Of excessive rarity.

The foregoing collection of Leshar Dollars is the most complete ever brought together and ever offered. It really should be purchased intact, as I am confident that it would be quite impossible to duplicate this collection in the lifetime of any collector. Therefore, bids for the entire collection, lot Nos. 1685 to 1700 inclusive will be considered, but I reserve the privilege of selling the collection separately if the bids exceed the bid for the entire collection. As usual when unusual items of this kind are offered, I receive so many inquiries requesting my opinion of the value, I might say here that in my judgment the collection should bring at least \$1,000.00. This is not intended as a limit.

- 1855 1907 Perfect brilliant proof; partly sharp wire edge.
- 1856 1908 Perfect brilliant proof.

- 1858 1910 Perfect brilliant proof. Wire edge. Rare. Much underrated; only listed at \$5.50.
- 1859 1911 Perfect brilliant proof. Same remarks apply to this as the preceding lot.

U. S. HALF-DOLLARS, 1921 TO 1942; O. MINT

Lot No.

- 1869 1921 Uncirculated with full mint luster. Very rare. Catalogs at \$40.00 and certainly worth it. In 1937 this coin was cataloged at \$2.50. If your collection of Liberty standing Half-Dollars, as well as the Morgan types, is still incomplete I certainly wouldn't wait too long to complete it and not wait until you can get them at too much of a bargain. Even at their full catalog prices they will seem like real bargains in the very near future. New collectors are coming on the market in great numbers, and, of course, the supply of coins is the same and they are getting spread out very thin.
- 1870 1934 (None coined from 1922 to 1933 inclusive.) Uncirculated with full mint luster.
- 1871 1935 Uncirculated, mint luster.
- 1872 1936 Perfect brilliant proof. Very rare and in great demand. Now catalogs at \$10.00 and should bring more.
- 1873 1937 Perfect brilliant proof. Getting very scarce and in much demand.
- 1874 1938 Perfect brilliant proof. Very scarce. Just watch for the great advance in these late proof coins.
- 1875 1939 Perfect brilliant proof; sharp wire edge.
- 1876 1940 Perfect brilliant proof.
- 1877 1941 Perfect brilliant proofs with sharp wire edge.
- 1878 1942 Perfect brilliant proof; wire edge.

- 1923 1893 Uncirculated; frosty mint surface. Very scarce. Catalogs at \$8.00.

WASHINGTON-LAFAYETTE HALF-DOLLAR

Really the First Commemorative Half-Dollar Issued, 1824

1824 over '21 U. S. Half-Dollar with counterstamps of portraits of Washington and Lafayette. Portrait of Washington to left, with semi-circle, GEORGE WASHINGTON. Reverse, counterstamp portrait of Lafayette facing right, date, 1824, below. Around, GENERAL LA FAYETTE. The counterstamps are about the size of U. S. Half-Dime and struck in center of coin. Perfect uncirculated with the counterstamps in proof. Struck in commemoration of the visit of Lafayette in 1824. This specimen is the only one I have ever seen or know of. As far as I know, it is unique. I first handled this identical specimen when I purchased some coins from the great collector, Mr. Granberg of Wisconsin. It then went to the Newcomer Collection of Baltimore, a million-dollar collection, and then to the great Colonel Green Collection. I believe that this is the first time the coin is being offered at auction. It is difficult to place a value on a coin of this kind, but if late commemorative coins have brought over \$50.00 each, this coin is certainly worth very near if not above the \$100.00 mark, especially in this beautiful gem condition.

U. S. COMMEMORATIVE HALF-DOLLARS

With all due respect to the many things which have been said for and against these beautiful and really historical coins, they are now again coming into their own. Prices have been steadily advancing, and many of them are unobtainable at the highest catalog prices. To avoid repetition, all of the following coins are in perfect uncirculated condition unless otherwise mentioned. If you do not have a complete set of these beautiful coins, I certainly would not wait any longer to complete the collection now. The prices in parenthesis following each lot represent the present catalog prices. Some of these commemoratives bring a little less than the catalog prices, but the greater majority bring full catalog, and many far more. The catalog prices here given are simply intended as a guide and in no way should be considered as limits. I repeat that all specimens are in perfect mint condition unless otherwise described.

Lot No.

- 2031 1892 Columbian. Beautiful brilliant proof. I doubt if it was struck as a proof, but it is undoubtedly an early impression of the die and is equal to a proof and has been bringing high prices.
- 2032 1893 Columbian. In mint condition, as is this one, it is more scarce than the 1892.
- 2033 1915 Panama-Pacific. Catalogs at \$12.50. Worth much more in mint condition.
- 2034 1918 Illinois Centennial. Portrait of Lincoln. Brilliant. (\$2.00.)

- 2037 1921 Pilgrim. Brilliant. Reverse almost a proof. (\$6.00.)
- 2038 1921 Missouri Centennial. Plain. Rare and in demand. (\$17.50.) Worth more today.

- 2063 1935 Kentucky as last, S Mint. (\$4.00.)
- 2064 1935 Kentucky but with small date, 1934. Only 10,000 minted. (\$1.50.) Worth more.
- 2065 1935 Kentucky with small 1934 as last. Denver and San Francisco Mints. Only 2,000 of each minted. Very rare. At one time this pair sold for \$125.00. Now listed at \$40.00, but I believe they will advance to near their former record in the near future. 2 pcs.

COMMEMORATIVE HALF-DOLLARS

Lot No.	
2071	1935 San Diego, Calif. Exposition. (\$2.00.)
2072	1935 Old Spanish Trail. View of the trail, with map from Florida to Texas. Very scarce. (\$7.50.)
2073	1935 Texas. Less than 10,000 minted.
2074	1935 Texas, Denver Mint. 10,000 minted.
2075	1935 Texas, S Mint. 10,000 minted.
2076	1936 Rhode Island Tercentenary. More medallic in design.
2077	1936 Rhode Island. Denver Mint.
2078	1936 Rhode Island, S Mint. (The set of three coins catalog for \$6.00, but bids here must be made on each lot separately.)
2079	1936 Arkansas. Same type as 1935. Less than 10,000 minted.
2080	1936 Arkansas, Denver Mint.
2081	1936 Arkansas, S Mint. The set of three catalog at \$6.00. But as less than 10,000 of each were minted, I am certain that these coins are destined for much higher prices.
2082	1936 Texas Centennial, the original Centennial year of this great State. Less than 9,000 minted.
2083	1936 Texas Centennial, Denver Mint. Less than 10,000 minted.
2084	1936 Texas Centennial, San Francisco Mint. Only about 9,000 minted. The set of three coins now catalog at \$5.00, but with the limited issue, they are certain to advance in value.
2085	1936 Kentucky or Daniel Boone. 12,000 minted. (\$1.50.)
2086	1936 Kentucky, Denver Mint. Only 5,000 minted.
2087	1936 Kentucky, S Mint. This coin and the preceding two lots are with the small date of 1934 also. The pair of S and D Mints catalog for \$8.00.
2088	1936 Oregon Trail Memorial. Only 10,000 minted. (\$1.50.)
2089	1936 Oregon Trail, San Francisco Mint. Only 5,000 minted. (\$6.00.)
2090	1936 San Diego, Calif. Denver Mint. 30,000 minted. (\$2.00.) There is very little rhyme or reason why a coin of which 30,000 were minted catalogs at \$2.00, and others of which the issue was only 10,000 catalogs for \$1.50.
2091	1936 Cleveland Great Lakes Exposition. Beautiful coin. (\$1.25.)
2092	1936 Wisconsin Centennial. First Territorial seal. (\$2.00.)
2093	1936 Long Island Tercentenary. (\$1.50.)
2094	1936 Cincinnati Musical Center. Portrait of the famous composer, Stephen Foster.

COMMEMORATIVE HALF-DOLLARS

Lot No.	
2098	1936 Bridgeport, Connecticut, Centennial. (\$2.00.) Very scarce.
2099	1936 Lynchburg, Virginia, Centennial. (\$2.50.)
2100	1936 Delaware Tercentenary. View of old Swedish Church. (\$2.25.)
2101	1936 Battle of Gettysburg. Heads of Union and Confederate soldiers. (\$2.50.) Very scarce and in much demand.
2102	1936 Albany, 1686-1936. (\$2.00.) But retails for more.

2104	1936 Norfolk, Va., Bi-Centennial. (\$2.25.)
2105	1936 San Francisco Oakland-Bay Bridge. (\$2.25.)
2106	1936 Columbia, South Carolina, Sesqui-Centennial. Only 9,000 minted.
2107	1936 Columbia. As last, Denver Mint. Only 8,000 minted.
2108	1936 Columbia, as last, S Mint. Only 8,000 minted. The set of three now catalogs at \$7.50. Bids must be made for each lot separately.
2109	1936 Arkansas, but with portrait of Senator Robinson. (\$1.50.)
2110	1937 Roanoke Island, N. Car. Very artistic and historical coin. (\$2.50.)
2111	1937 Battle of Antietam. (\$2.50.) Very scarce and in demand. Portraits of General Lee and General McClellan.
2112	1937 Kentucky or Daniel Boone Bicentennial. Less than 10,000 minted. (\$2.50.)
2113	1937 Kentucky or Daniel Boone as last, Denver Mint. Only 2,506 minted. Rare.
2114	1937 Kentucky, as last, S Mint. These are with the small 1934 date. This specimen is almost a brilliant proof. The pair, D and S Mints, now catalog for \$30.00.
2115	1937 Arkansas Centennial. Only 5,505 minted.
2116	1937 Arkansas as last, Denver Mint.
2117	1937 Arkansas as last, S Mint. Only about 5,000 of each minted, and the set of three catalogs now at \$15.00. Due to the small number issued and of the great number of collectors now existing, I look for greatly advanced prices on these coins.
2118	1938 New Rochelle, N. Y. Lord Pell and fattened calf. (\$2.50.)
2119	1937 Texas. 6,571 minted. Very scarce.
2120	1937 Texas, Denver Mint. Only 6,605 minted.
2121	1937 Texas. Only 6,637 minted. The set of three catalogs for \$5.00, but certainly worth much more due to the limited coinage.
2122	1937 Oregon Trail. Only issued at Denver Mint in this year. 12,000 minted. (\$1.50.) Should bring more.
2123	1938 Oregon Trail. About 6,000 minted. Very scarce and in demand.
2124	1938 Oregon Trail, Denver Mint. Only 6,000 minted.

- 2127 1938 Arkansas, as last, Denver Mint. Rare.
- 2128 1938 Arkansas, S Mint, as last. Only 3,156 specimens coined of each. The set of three now catalogs for \$12.50, but with the small issue will undoubtedly greatly advance in the near future.
- 2129 1938 Texas. Limited coinage. Rare.
- 2130 1938 Texas, Denver Mint. Rare.
- 2131 1938 Texas, S Mint. Only about 3800 specimens struck of each. The set of three now catalogs for \$20.00.
- 2132 1938 Kentucky or Daniel Boone, with small date of 1934. Only 2,100 minted. Rare.
- 2133 1938 Kentucky as last, Denver Mint.
- 2134 1938 Kentucky as last, San Francisco Mint. Only 2,100 of each were minted. The set of three now catalogs for \$30.00. But with its very limited coinage, I'm certain it will greatly enhance in value.
- 2135 1939 Arkansas. Last year of this issue. Limited coinage. Very scarce.
- 2136 1939 Arkansas. As last, Denver Mint.
- 2137 1939 Arkansas. San Francisco Mint. Only about 2,100 specimens of each were minted. The set now catalogs at \$35.00 and it is in great demand. It would not surprise me to see these sets bring up to \$50.00 in the very near future.
- 2138 1939 Oregon Trail. Probably one of the most artistic coins of the entire series of commemoratives.
- 2139 1939 Oregon Trail, Denver Mint.
- 2140 1939 Oregon Trail, San Francisco Mint. Only about 3,000 of each were minted. The set of three now catalogs for \$22.50, but should bring more due to its very limited coinage.

AN UNUSUAL DEPARTURE

I Offer Here For Sale at a Fixed Price a Collection of All Morgan Type Half-Dollars, 1892 to 1915 Inclusive

Superb Collection of Morgan Type Half-Dollars, 1892 to 1915 inclusive, Philadelphia, Denver, New Orleans and San Francisco Mints. Every date and mint issued, including, of course, all the rarities. The Half-Dollars of the Philadelphia Mint are all in superb brilliant proof condition: All the Branch Mints are in absolutely uncirculated condition, some are brilliant semi-proofs, almost equal to proofs. This collection was formed by me personally over a period of more than ten years, during which time I constantly improved the various specimens where now I am confident that it is as beautiful and perfect a set of these scarce and rare Half-Dollars as exists. As mentioned before, it took me more than ten years to get it complete and in the condition I desired. The collection is housed in two Standard albums and consists of seventy-three (73) superb specimens. Price for the entire collection, \$900. This is slightly above present catalog listing, but remember, that each and every coin is a selected and superb specimen and the best that could be found in a period of more than ten years. These coins have more than doubled in value in the last few years and I am sure that the future holds for them an even greater advance. This is not intended as a sales talk, but simply as a matter of information. Frankly, I'm not very anxious to dispose of the collection, but as I have had my pleasure out of it, I am willing to pass it on to some kindred soul. The first order gets it. Cash order will be given preference, but of course, it will be sold with the understanding that the purchaser is to be satisfied or the purchase price will be refunded. It will also be sent on approval to anyone who is well known to me, but as mentioned before, cash order of \$900 will be given preference. I doubt if an equal set exists. Certainly not a superior one.

UNITED STATES QUARTER-DOLLARS

Philadelphia Mint

The Quarter-Dollars of this Mint were first coined in 1796. The second date was in 1804 and coined to 1807 inclusive. Coinage was resumed in 1815 but none were coined in 1816 and 1817. Coinage resumed in 1818 and coined continuously until 1828 except 1826. From 1831 to 1921 inclusive: None minted in 1922. Minted from 1923 to 1930 inclusive. 1931 was omitted; coinage resumed in 1932 but none coined in 1933. Minted in 1934 to the present date inclusive.

Lot No.

- 2142 1796 The first year of issue. A strictly fine specimen. Quite rare and in demand.
- 2143 1804 Second year of issue. A strictly fine specimen. Two minute nicks on upper left obverse, but a most acceptable specimen of this rare date. Catalogs at \$25.00.
- 2144 1805 Very fine. Scarce so choice. Catalogs at \$5.00 in only fine.
- 2145 1806 over '05. Practically uncirculated with frosty mint surface. This variety of the Quarter-Dollar has a record of over \$100.00. Extremely rare so choice.
- 2146 1806 Perfect date. Struck slightly weak on upper reverse above eagle. Practically uncirculated with frosty mint surface. The coin was originally purchased as uncirculated, and as such, rare and valuable.
- 2147 1807 Very fine; some traces of mint luster. Scarce date in rare condition.
- 2148 1815 Beautiful perfect uncirculated specimen; sharp with full mint luster. Just about as perfect as the day it was minted. Rare so choice. Catalogs for only \$12.50. In my humble opinion, these early Quarter-Dollars in choice condition are far under-cataloged. There are far fewer specimens in choice condition known than of the later Liberty Standing Quarters which bring more than double than these early specimens do now. But some day soon collectors will wake up to the rarity and value of these early choice U. S. silver coins. And then watch their values go up.
- 2149 1818 Perfect date. Slight die breaks on reverse. Uncirculated; sharp. As perfect as the day it was minted. Rare so choice.
- 2150 1819 Small 9 in date. Extremely fine; just a shade from uncirculated. Listed at \$12.50.

U. S. QUARTER-DOLLARS, 1819 TO 1838

Lot No.

- 2151 1819 About uncirculated; iridescent mint luster. Catalogs at \$12.50.
- 2152 1820 Large 0 in date. Extremely fine with some luster. Catalogs at \$10.00 in uncirculated.
- 2153 1820 Small 0 in date. Very fine; in fact, I believe it is extremely fine with some luster.
- 2154 1821 Beautiful uncirculated specimen with brilliant mint luster. Variety with light die break from wing to scroll and through value. A gem coin, and as such, worth far more than its catalog price of \$7.50.
- 2155 1822 Perfect date. Nearly uncirculated; some cabinet friction; frosty mint surface. Very scarce. Catalogs at \$17.50 in uncirculated.
- 2156 1824 Uncirculated with bright mint luster. Rare so choice. Catalogs at \$25.00.
- 2157 1825 over 1823. Uncirculated; sharp with full mint luster, but very light scratch on obverse field to left of bust. The scratch is hardly noticeable. Catalogs at \$10.00.
- 2158 1825 over '24. Brilliant semi-proof; just about equal to a perfect proof. Rare so choice.
- 2159 1828 **The extremely rare variety with 25 over 50 on reverse.** **Uncirculated** with mint luster. Every star filled. One of the really great rarities of the early Quarter-Dollars, especially in this remarkably choice condition. Catalogs at \$50.00 and certainly worth it.
- 2160 1828 Perfect date. Brilliant semi-proof, just about equal to a perfect proof. A gem, and as such, rare and valuable. At least ten times as rare as some of the Liberty Standing Quarters which bring \$20.00 or more.
- 2161 1831 Small letters on reverse. Brilliant uncirculated. Quite rare so choice; far more so than it is given credit for.
- 2162 1832 Uncirculated, frosty mint surface. Very scarce so choice. Catalogs at \$3.00 but worth more.
- 2163 1833 Brilliant semi-proof, almost equal to a perfect brilliant proof. Raised borders. A gem. Rare and valuable so choice.
- 2164 1834 Brilliant uncirculated with proof surface. Very scarce so choice. Worth more than its catalog price of \$2.50.
- 2165 1835 Variety without period after 25 C. Extremely fine. Rare.
- 2166 1835 With period after 25 C. Curl on obverse directly over 5 of date. The 25 is very close together and the C somewhat smaller. Uncirculated. Very scarce variety.
- 2167 1835 Curl partly over but mostly to right of 5. Die break on obverse. Reverse, 25 farther apart, and C larger. Uncirculated.
- 2168 1836 Uncirculated with proof surface. Catalogs at \$3.00 and I still insist these uncirculated Quarters are worth more than catalog prices.
- 2169 1837 Uncirculated with brilliant surface. Very scarce.
- 2170 1838 Bust type. Uncirculated, frosty mint surface.

U. S. QUARTER-DOLLARS, 1838 TO 1854

Lot No.

- 2171 1838 New type, Liberty seated. Brilliant uncirculated with proof surface, almost equal to a brilliant proof. Catalogs at \$5.00 in uncirculated. This one worth more.
- 2172 1839 Uncirculated; raised borders with partly wire edge. Variety with faint die break across reverse. Uncirculated. Rare variety.
- 2173 1840 Brilliant semi-proof. I believe this coin was originally struck as a proof. The field is slightly rubbed. Catalogs at \$10.00 in uncirculated. In proof it should be worth several times that amount.
- 2174 1841 Brilliant uncirculated. Rare so choice. Catalogs at \$10.00.
- 2175 1842 So-called large date. Brilliant semi-proof; almost equal to a perfect proof. The obverse shows minute, hardly noticeable, marks of handling. A gem coin. Catalogs at \$6.00 in uncirculated.
- 2176 1843 Uncirculated, frosty mint surface.
- 2177 1844 Uncirculated with frosty mint surface. Highest portions show the very slightest cabinet friction. Catalogs at \$6.00.
- 2178 1845 Uncirculated with full mint luster. Very scarce. Catalogs at \$5.00.
- 2179 1846 Perfect date. Uncirculated; frosty mint surface. Rare so choice. Catalogs at \$7.50.
- 2180 1847 Uncirculated, mint luster. Variety with small die break on upper left reverse edge. Rare. Ordinary variety catalogs at \$6.00.
- 2181 1848 Perfect date. About uncirculated with mint luster. Catalogs at \$10.00.
- 2182 1848 Date re-engraved or double-struck. Bright uncirculated with full mint luster. Rare. Catalogs at \$10.00.
- 2183 1849 Brilliant semi-proof; faintest touch of cabinet friction. Rare so choice.
- 2184 1850 Brilliant uncirculated with proof surface. Catalogs at \$4.00.
- 2185 1851 Brilliant uncirculated, semi-proof. Catalogs at \$6.00 in ordinary uncirculated.
- 2186 1852 Uncirculated with even frosty mint surface. Rare date in rare condition. Catalogs at \$6.00 and I believe this is one rare Quarter which is worth more.
- 2187 **1853 over '52**, as all are. The very rare variety without arrowheads at sides of date and without rays about eagle on reverse. Beautiful uncirculated specimen with full mint luster. While this coin is cataloged at \$35.00, I believe it is one of the most under-rated rarities of the entire series, especially in uncirculated condition. \$50.00 would be a bargain for this coin when comparing it with prices realized for far lesser rarities.
- 2188 1853 Second issue, with rays and arrows. Uncirculated. Scarce so choice.
- 2189 1854 Date close to base. Uncirculated; full mint luster.

U. S. SILVER QUARTER-DOLLARS, 1854 TO 1880

Lot No.

- 2190 1854 Date away from base. Die break through right arrow. Uncirculated. Very scarce.
- 2191 1855 **Brilliant proof;** partly wire edge. From a proof set. Extremely rare. Catalogs at \$25.00.
- 2192 1856 **Brilliant proof.** Extremely rare. Catalogs at \$25.00.
- 2193 1857 **Brilliant proof.** Very rare. From proof set. Catalogs at \$17.50.
- 2194 1858 **Brilliant proof.** Catalogs at \$12.50, which is an advance of \$4.50 over last listing. It should bring double this amount.
- 2195 1859 Perfect brilliant proof. Catalogs at \$6.00. In 1937 it cataloged for only \$2.25 and it has almost doubled in value since last listing, as have practically all of the following Quarter-Dollars.
- 2196 1860 Perfect brilliant proof. Rare; more so than the 1859.
- 2197 1861 Perfect brilliant proof. Catalogs at \$6.00.
- 2198 1862 Perfect brilliant proof; wire edge. Catalogs at \$5.00 but is far more scarce than the 1861.
- 2199 1863 Perfect brilliant proof with wire edge on obverse. Catalogs at \$5.00.
- 2200 1864 Perfect brilliant proof with sharp wire edge. Catalogs at \$6.00.
- 2201 1865 Perfect brilliant proof; wire edge. Catalogs at \$6.00. Doubled in value in the past few years.
- 2202 1867 Perfect brilliant proof. Catalogs at \$5.00, more than 100% increase in the past few years. And I don't see any reason why these proofs should not continue to advance in value, as I am sure they will. The number of specimens struck in proof was very limited indeed, and the number of collectors now interested are at least 1000% more than there were a few years ago.
- 2203 1868 Perfect brilliant proof. Very scarce. More so than some coins listed up to \$10.00.
- 2204 1869 Perfect brilliant proof; high wire edge on obverse. Catalogs at \$4.00.
- 2205 1870 Perfect brilliant proof with wire edge. Catalogs at \$4.00.
- 2206 1871 Perfect brilliant proof; partly wire edge. Catalogs at \$4.00.
- 2207 1872 Perfect brilliant proof.
- 2208 1873 With arrowheads at sides of date. Perfect brilliant proof. Rare. Catalogs at \$7.50.

PATTERNS for the U. S. QUARTER-DOLLARS

Another reminder: If you desire a copy of the Adams-Woodin excellent book on the U. S. Pattern coins, listing over seventeen hundred different patterns, all types illustrated with half-tone reproductions, I have a few copies still available at \$3.00 each.

- 2387 **1827** Pattern Quarter-Dollar. Type of regular issue, but struck in copper. Thick planchet with wire edge. Brilliant proof. A-W 37, Rarity 14. Only three specimens struck. Excessively rare. I believe this is the first specimen to be offered at auction in at least fifty years. Far more rare than the silver specimen which now catalogs at \$1,000.00. The former owner valued this piece at \$300.00.
- 2388 1869 Beautiful head of Liberty with cap and large star. Motto on scroll below. Reverse, value in wreath. STANDARD SILVER. Silver, milled edge. A-W 754. Brilliant proof. Rare and in much demand.
- 2389 1869 Pattern Quarter-Dollar as last, but struck in aluminum. Plain edge. A-W 763. High wire edge. Brilliant proof. Only 25 specimens minted. Last record near \$10.00.
- 2390 1870 Type similar to last, but value and date in wreath, and STANDARD above. Silver; milled edge. A-W 958. Brilliant proof. Only about 25 minted. A similar specimen in the Dunham Sale brought \$7.50.
- 2391 1870 Liberty head without cap, star on forehead, otherwise as last. A-W 964. Silver, milled edge. Perfect brilliant proof. Very scarce. Record \$7.50.

PATTERNS; QUARTER-DOLLARS; TWENTY CENTS

Lot No.

- 2392 1870 Beautiful Pattern with Liberty seated supporting shield, date below, 13 stars. Reverse, value, 25 CENTS in wreath, STANDARD above. Broad borders; wire edge. Copper. A-W 978. Brilliant proof. Rare and valuable. Only about 25 coined.
- 2393 1871 Indian Princess type. Indian Princess with Liberty cap and pole seated on globe. Reverse, type of regular issue. A-W 1148, Rarity 12. Only about eight minted. Iridescent copper proof. Very rare.

U. S. TWENTY-CENT PIECES

The Twenty-Cent pieces were minted from 1875 to 1878 only. The 1877 and 1878 were coined in proofs only to order of collectors and only a very limited number were minted. In 1875 they were struck at the San Francisco Mint; also in 1875 and 1876 they were minted at the Carson City mint. The 1876 CC is excessively rare and probably not more than a dozen specimens are known.

- 2394 1875 First year of issue. Perfect brilliant proof. A gem. Rare in proof. Only a few years ago it was cataloged at \$3.50, and now it is listed at \$8.50, but in this gem condition it is worth much more.
- 2395 1875 S Mint. Uncirculated with full mint luster. Very scarce so choice. Catalogs at \$2.50 and sells for more in this choice condition.
- 2396 1875 Carson City Mint. Uncirculated with frosty mint surface. Very scarce so choice. Catalogs at \$7.50 but I have sold similar specimens for \$10.00.
- 2397 1876 Perfect brilliant proof with slightly raised borders. A gem. Catalogs at \$10.00 and is really worth more.
- 2398 1877 Perfect brilliant proof. Only 510 specimens struck in all. Very rare and valuable. Catalogs at \$22.50.
- 2399 1878 Last year of issue. Perfect brilliant proof; partly wire edge. Only 600 specimens struck in all. Rare. Catalogs at \$20.00 and readily sells for more.
- 2400 1875 Pattern Twenty-cents. Head of Liberty with diadem to left, date below; thirteen stars. Reverse, large shield on which is incused, stamped in, the figure 20; the word CENTS below. Legend around. Copper proof; milled edge. A-W 1436, Rarity 10. Only about 15 minted. Far more rare than any of the other issues of 20c pieces.

UNITED STATES DIMES or TEN-CENTS SILVER

Philadelphia Mint

Coinage began in 1796 and coined continuously with the following exceptions: None minted in 1799, 1806, 1808, 1810, 1812 and 1813, 1815 to 1819, 1922, 1933.

Lot No.

- 2401 1796 First year of issue. Variety with die break at first star on left. Just a shade from uncirculated; sharp with mint luster. Very rare so choice. Catalogs at \$30.00 in only very fine. This one worth much more. Recent record, \$80.00.
- 2402 1797 Variety with thirteen stars. Strictly very fine; well centered and struck with nice even milled borders. Extremely rare. Catalogs at \$75.00.
- 2403 1797 Sixteen stars. Practically uncirculated on obverse, but solder mark in center of reverse which could probably be removed. Had it not been for this defect it would have been nearly a \$100.00 coin. The obverse is a beauty.
- 2404 1798 over '97. Strictly very fine; perfectly centered and struck. Very rare. Catalogs at \$40.00.
- 2405 1798 Perfect date. Extremely fine with the reverse nearly uncirculated. Very light die break from edge on left side of Y to nose. Very light hardly noticeable hair-line mark on left obverse. A beautiful specimen of this rarity. Seldom equalled. Recent record, \$50.00. Catalogs at \$40.00 in only very fine. This one worth more.
- 2406 1800 Strictly fine; the reverse is very fine, but unfortunately holed at top, and a pretty good sized hole at that. Catalogs at \$25.00, but this specimen with its defect is hardly worth anywhere near that amount. But it would prove a good space-filler for the moderate collector.
- 2407 1801 Practically uncirculated with mint luster. Very slight die defect on lower obverse. One of the most difficult Dimes to find choice, and in this condition, almost priceless. It catalogs at \$60.00 in only very fine.
- 2408 1802 Very good. Short scratch on right obverse near edge. These early rare Dimes are usually found fair to very fair. Rare.

BEAUTIFUL PATTERN DIMES

These are all attributed according to Adams-Woodin excellent work on the subject, a book of 196 pages describing 1,752 different pattern coins, from 1792 to 1910, with illustrations of the different types. I have a few copies of the reprint of this rare book which I can now supply at only \$3.00 per copy.

The Extremely Rare 1792 DISME

Lot No.

- 2642 1792 Disme. Head of Liberty with flowing hair facing left, date, 1792, below. Around, LIBERTY PARENT OF SCIENCE & INDUS. (try). Reverse, flying eagle to left with head turned to right. The word DISME below; around, UNITED STATES OF AMERICA. Copper. Finely milled edge. Good with very good date. Extremely rare. I believe that this is the first or at the most, second specimen I have ever handled either at private sale or at auction. Adams-Woodin lists it among the Patterns as No. 2, Rarity 13. (Indicating that only five specimens were minted.) The fact that this specimen has seen circulation it substantiates the statement in the Standard Catalog to the effect that these coins, without doubt, circulated and were minted for that purpose. Listed up to \$150.00. Has an auction record made in 1935 for over \$100.00.
- 2643 1863 Pattern Dime. Shield with crossed arrows. EXCHANGED FOR U. S. NOTES. Reverse, value and date in center. Above, POSTAGE CURRENCY; below, ACT JULY 1862. Aluminum. Plain edge. A-W 381. Brilliant proof. According to Adams-Woodin only sixteen pieces were struck on May 20, 1863. Rare. Record over \$10.00.
- 2644 1863 Pattern Dime. Type of regular issue, but struck in copper. A-W 391. Brilliant proof. Very rare. Only about 25 minted. Seldom offered.
- 2645 1868 Pattern Dime. Variety not listed in A-W. Obverse same as lot 2643. Reverse, ONE DIME 1868 in wreath with star above the word ONE. Copper. Plain edge. Proof. Extremely rare and valuable.
- 2646 1869 Pattern Dime. Beautiful head of Liberty with cap and star, motto below. Reverse, value in wreath, date below. STANDARD SILVER above. Silver. Milled edge. A-W 775. Only about seventy-five specimens minted. Brilliant proof. Very scarce and in demand. Not in the Dunham Sale where there were more than forty different Pattern Dimes offered.
- 2647 1869 Pattern Dime. Same as last, but struck in copper with plain edge. A-W 776. Only twenty-five minted. Uncirculated. Rare. Former owner claims to have paid \$10.00 for it.
- 2648 1869 Pattern Dime. As last but with milled edge. A-W 777. Copper. Uncirculated. Not in the Dunham Sale. Only about seventy-five minted.

This gem is certainly ten times as rare and valuable.

UNITED STATES NICKEL COINS

FIVE-CENT PIECES, NICKEL

Philadelphia Mint

Coinage began in 1866, and until 1912 they were coined at the Philadelphia Mint only. Beginning in 1912 they were coined at the Denver and San Francisco Mints as well as the Philadelphia. For the past few years this series has become tremendously popular, especially the specimens in choice condition. On an average, they have increased in value at least five times, and some increased several hundred per cent. And I honestly believe that they have not yet seen their highest prices by a long ways.

Lot No.

U. S. PATTERNS for FIVE CENTS, NICKEL

Including the Excessively Rare Specimens With Portrait of Lincoln

- 2898 1866 Pattern 5¢. Portrait of Washington, date below. Above, IN GOD WE TRUST. Reverse, large five 5 in wreath, UNITED STATES OF AMERICA. Struck in copper. A-W 550. Only twenty-five minted. Uncirculated with proof surface. Said to have cost \$20.00.
- 2899 1866 Obverse as last, with portrait of Washington. Reverse, type of regular issue. Rays between stars. A-W 551. **Struck in nickel.** Very rare and in demand.

- 2900 1866 Five-Cent Nickel. **The excessively rare variety with portrait of Lincoln.** (See illustration above.) A-W 581. Struck in nickel. Only 15 minted. Excessively rare and in great demand. Another reason for its great rarity, besides the number minted, is the fact that it is sought after by not only coin collectors, but collectors of Lincolnia as well. In my forty-three years of numismatic experience I do not recall of having but one other specimen pass through my hands. Valued at \$150.00. If an 1877 nickel is worth \$30.00, this coin is worth \$500.00.
- 2901 1866 Five-Cent Nickel. **Portrait of Lincoln.** Same as last, but struck in copper. Wire edge. A-W 582. Only 25 minted. Iridescent proof with wire edge. Excessively rare. Just as rare as the specimen struck in nickel.

U. S. PATTERN LARGE CENTS
The Excessively Rare SILVER-CENTER Cent

Lot No. 3111

1792 Silver Center Cent. Head of Liberty with flowing hair, facing right. Date below. Legend, LIBERTY PARENT OF SCIENCE & INDUST: Reverse, ONE CENT in wreath; fraction, 1/100 below. Around, UNITED STATES OF AMERICA. Milled edge. Copper with silver center to bring up its value to the value of the metal. This coin was beyond doubt issued for circulation, as it is found in various degrees of condition. Extremely fine; only barest touch of circulation. Excessively rare. Only about eight specimens minted. Of highest numismatic interest. This particular specimen has an unusually interesting pedigree. It originally came from the great Earle Collection. It was purchased by Mr. Wurtzbach of Massachusetts, who in turn sold it to the great Chicago collector, Virgil M. Brand. A specimen in the Jenks' Sale, Dec., 1921, brought \$440.00. Some of the greatest collections ever offered did not contain a specimen. This great rarity in its beautiful condition is certainly worth a great deal more today.

SMALL CENTS of the UNITED STATES

Coinage began in 1856 and coined continuously till 1921 at the Philadelphia Mint. Coinage resumed in 1923 and coined continuously since then. First coined at the San Francisco Mint in 1908, and at the Denver Mint in 1911. I do not believe that another single series of our coinage enjoys such tremendous popularity and greatly enhanced values as do these small cents, especially in choice condition.

An Unusually Choice Collection With Some Rarities and Superb Specimens.

Lot No.

- 3246 1793 First year of issue. Variety with upper curl between LI. Crosby 1-A. Practically uncirculated with dark steel color. A beautiful specimen of our first Half-Cent, and as such, rare and valuable. Similar specimens have sold well over \$100.00.
- 3247 1794 Very wide date; point of Liberty cap touches border. Gilbert No. 9. Classed as Rarity 4. Practically uncirculated. A very minor light nick or dent on the lower right reverse edge. Raised borders. Light brown surface. A beautiful specimen of this very scarce Half-Cent. Catalogs at \$12.50 in very fine. This beautiful coin is worth a great deal more.
- 3248 1794 Close date; top of 4 almost touches bust. Gilbert No. 5. Very good, strictly so. Scarce. Catalogs at \$6.00 in good condition.
- 3249 1795 Thick planchet; lettered edge; pole to Liberty cap. Beautiful uncirculated specimen with glossy light brown surface. Really a gem, and as such, rare and valuable. In point of actual rarity, in this condition it is really at least a \$50.00 coin, but I doubt if it would bring that much today.
- 3250 1795 Thick planchet, lettered edge, with punctuated date, 1,795. Peculiar die break on reverse through AMER to edge. Practically uncirculated with dark olive surface. Another gem and a rarity.
- 3251 1795 Same type as last, but thin planchet and plain edge. Pole to cap, punctuated date. Just a shade from uncirculated; only highest portions show slight cabinet friction. A minute die break on upper reverse edge or it might be a minute nick. A beautiful specimen, of this very scarce variety, and in this condition, rare and valuable.
- 3252 1795 Thin planchet, no pole to cap. Struck slightly off center. A minute scratch at T on obverse. Practically uncirculated with glossy dark olive surface. Rare so choice.

UNITED STATES HALF-CENTS, 1796 TO 1803

Lot No.

- 3253 **1796** Variety with pole to cap. The obverse can easily be classed as very fine, especially for this coin, which is seldom found better than fair. The reverse very good to fine. Few minute nicks not affecting the appearance nor the value of this rarity. Far above the average found of this, the rarest date Half-Cent. Catalogs at \$225.00 and certainly worth it. This specimen is really worth more.
- 3254 **1797** Variety with figure 1 struck directly over 1 of date. Peculiar die breaks on obverse. The coin is uncirculated, but the left side of obverse and corresponding side of reverse not struck up as boldly as the balance of the coin. Medium glossy olive surface. Very rare so choice. Catalogs at \$10.00 in very fine. This one is worth several times that amount.
- 3255 **1797** Thicker planchet. Perfect die. Very broad milled borders on obverse. Gilbert No. 3. Fine to very fine. Rare.
- 3256 **1797 Lettered edge.** Strictly very good; the obverse can really be classed as fine, especially for this coin which is seldom found better than fair. Excessively rare. Catalogs at \$35.00 in only good condition. This is one of the best specimens that I have handled in my more than forty years of numismatic experience. Gilbert, in his excellent work on the Half-Cents of the United States, rates this coin as Rarity 9, a much higher rating than that given the 1796. It is the second highest rarity rating given any Half-Cent.
- 3257 **1800** Uncirculated with full mint red; only the slightest trace of light olive. A scarce date, but extremely rare in this remarkable condition.
- 3258 **1802 over 1800**, as all are. The center of reverse is not as boldly struck up as the balance of the coin. Very fine and very rare so choice. The coin was originally purchased as extremely fine and I think it will rate that classification. It is an even dark olive surface. One of the best specimens of this rarity I have seen in many years. Catalogs at \$20.00 in only fine condition. One of the most difficult dates of the Half-Cents to find choice.
- 3259 **1803** Perfect die with the exception of very light die breaks on obverse. About uncirculated with light brown surface. Very scarce. Catalogs at \$2.00 in only fine.
- 3260 **1803** Die break in fraction line touching ribbon on right. Nick on edge, otherwise strictly fine. Very scarce variety.

U. S. HALF-CENTS, 1804 TO 1828

- 3263 1804 Crosslet 4. Stems to wreath. Uncirculated; light brown surface.
- 3264 1804 Crosslet 4. Stemless wreath. Uncirculated; light brown blended with original mint red. A beautiful coin, and as such, very scarce.
- 3265 1804 Crosslet 4. With stems, but variety with long spiked chin and protruding tongue. Uncirculated with beautiful iridescent mint surface.
- 3266 1805 Large 5 in date. Stems to wreath. Very fine.
- 3267 1805 Small 5. Stemless wreath. Beautiful uncirculated specimen with even frosted light brown surface. Not a rarity, but certainly quite rare so choice.

- 3269 1806 Small 6. Stemless wreath. Extremely fine with traces of original red.
- 3270 1806 The rare variety with small 6, and stems to wreath. Very good, nearly fine. Rare. Seldom offered.
- 3271 1807 About uncirculated with original mint red blended nicely with olive. A very scarce date to find choice.

- 3275 1809 Perfect date. Uncirculated with every star filled. Light olive surface.
- 3276 1810 Uncirculated; reddish olive surface. The reverse is a beautiful iridescent mint luster. Scarce date in very rare condition.

- 3285 1833 Uncirculated with brilliant iridescent purple proof surface. Nearly equal to a proof.
- 3286 1834 Brilliant semi-proof. I hesitate to call this a proof, but it was originally bought as such. The obverse is a magnificent brilliant olive surface; the reverse an iridescent purple proof surface. Borders are high. Whether or not it is a proof, it is certainly a gem coin.
- 3287 1835 Uncirculated, mint red and olive surface nicely blended.
- 3288 1837 Not a mint issue, but struck and passed for circulation in 1837. Eagle with shield, date below. U. S. STANDARD WEIGHT & VALUE. Reverse, in wreath, HALF CENT WORTH OF, and below wreath, PURE COPPER. Thirteen stars. Very fine. Scarce and interesting.
